# Safety Instruction Guide for 3/8" Square Drive THandle Torque Wrench

## Introduction

Thank you for choosing the 3/8" Square Drive THandle Torque Wrench by Seekonk Precision Tools. This tool is designed to provide precise torque application for various applications, ensuring safety and efficiency. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the torque wrench is used only for its intended purpose.
- Always inspect the tool for any damage or wear before use.
- Keep the torque wrench clean and free from debris to ensure accurate readings.
- Store the wrench in a safe, dry place when not in use.
- Do not exceed the maximum torque rating of 55 inch pounds.
- Avoid using the wrench in wet or damp conditions to prevent slipping and accidents.
- Use appropriate personal protective equipment (PPE) such as gloves and safety glasses when operating the tool.
- Be aware of your surroundings and ensure that no one is in the vicinity while using the wrench.

## Specific Safety Precautions for Use

- Before using the torque wrench, familiarize yourself with its features and operation.
- Always apply torque gradually and steadily to avoid overtightening.
- Do not use the wrench to loosen fasteners; it is designed solely for tightening.
- If the wrench does not click when the set torque is reached, stop applying force immediately and check for proper calibration.
- Keep fingers and hands clear of moving parts during operation.
- If you experience any discomfort or pain while using the wrench, stop immediately and seek assistance.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the work area is clean and welllit.
- Gather all necessary tools and materials for the task at hand.

### 2. Setting the Torque:

- Adjust the torque setting to the required 55 inch pounds by turning the handle until the desired setting is reached.
- Doublecheck the setting to ensure accuracy.

### 3. Using the Torque Wrench:

- Place the socket head of the wrench onto the fastener that needs tightening.
- Apply pressure to the handle in a slow and controlled manner.
- Listen for a click sound, which indicates that the set torque has been reached.
- Release pressure immediately upon hearing the click.

### 4. PostUse Care:

- Clean the wrench with a soft cloth to remove any dirt or grease.
- Store the wrench in its protective case or designated storage area to prevent damage.

## **Disposal Instructions**

- Dispose of the torque wrench in accordance with local regulations regarding electronic and metal waste.
- If the wrench is no longer functional, consider recycling the metal components where possible.
- Do not dispose of the wrench in general household waste.
