

1/4" DRIVE TORQUE HANDLE - SEEKONK PRECISION TOOLS 65 IN/LB TORQUE HANDLE

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Wrenches](#) > [General Wrenches](#)

Takes The Guesswork Out Of Tightening Triggerguard Screws

Improve accuracy and shot-to-shot consistency by torquing rifle triggerguard, plus any ring and base screws to the same reading every time. Convenient T handles break away at pre-set, inch/pound torque values and the back-off feature allows the screw to be removed again. Accepts all 1/4" drive attachments.

Safety Instruction Guide for 1/4" Drive Torque Handle

Introduction

Thank you for choosing the 1/4" Drive Torque Handle by Seekonk Precision Tools. This tool is designed to improve the accuracy and consistency of your torque applications. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the torque handle is used only for its intended purpose.
- Always inspect the tool before use to ensure it is in good working condition.
- Keep the torque handle out of reach of children and vulnerable individuals.
- Do not exceed the specified torque values to avoid damage to the tool or the components being worked on.
- Use the torque handle in a welllit and stable environment to prevent accidents.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the tool.

Specific Safety Precautions for Use

- **Hazardous Conditions:** Avoid using the torque handle in wet or damp conditions to prevent slipping.
- **Proper Grip:** Always maintain a firm grip on the torque handle while in use to prevent losing control.
- **Torque Settings:** Familiarize yourself with the torque settings required for your specific application. Refer to your equipment's manual for guidance.
- **Breakaway Mechanism:** Do not force the torque handle beyond its preset torque value. The breakaway feature is designed to prevent overtightening.
- **Screw Removal:** When using the backoff feature, ensure that the torque handle is not under load to avoid injury.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components before starting.
- Ensure the work area is clean and organized.

2. Setting the Torque:

- Adjust the torque setting on the handle to the desired value according to your application.

3. Using the Torque Handle:

- Attach the appropriate 1/4" drive socket or accessory to the torque handle.
- Position the socket on the screw or bolt you wish to torque.
- Apply steady pressure until the torque handle reaches the preset value. The handle will break away at this point.

4. Removing Screws:

- To remove screws, use the backoff feature by gently turning the handle in the opposite direction.

5. PostUse Care:

- Clean the torque handle after use to remove any dirt or debris.
- Store the tool in a dry place, away from extreme temperatures.

Disposal Instructions

- Dispose of the torque handle in accordance with local regulations regarding electronic and mechanical waste.
- Do not dispose of the tool in household waste. Look for designated recycling centers or collection points.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact details provided with your product packaging.

Thank you for taking the time to read this safety instruction guide. By following these guidelines, you can ensure a safe and effective experience with your 1/4" Drive Torque Handle.
