

# SHAPED CERAMIC STONES - SPYDERCO TRIANGLE CERAMIC STONE

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Stones](#)

## Sharp Edges, Easy Cleaning

Ceramics cut beautifully and uniformly using water (not messy oil) as the lubricant; they're resistant to shatter and breakage and literally last a lifetime. Cleanup consists only of washing with detergent and warm water to restore the original clean, white cutting surface. The cut is rated smooth and you can cut Hard Arkansas with these Ceramic files. After a bit of use and a few washings, the cut will become even finer.

## Attributes

- Name: [SPYDERCO TRIANGLE CERAMIC STONE](#)
- Manufacturer: [SPYDERCO](#)
- Product no.: 824400002
- Mfr. No.: 400F1T

# Safety Instruction Guide for SHAPED CERAMIC STONES SPYDERCO TRIANGLE CERAMIC STONE

## Introduction

Thank you for choosing the SHAPED CERAMIC STONES SPYDERCO TRIANGLE CERAMIC STONE. This guide provides essential safety information to ensure the safe use of this product. Please read this guide carefully before using the ceramic stones.

## General Safety Guidelines

- Always handle the ceramic stones with care to avoid injury.
- Ensure that the workspace is clean and free from obstructions before use.
- Keep the ceramic stones out of reach of children and vulnerable individuals.
- Do not use the ceramic stones for purposes other than intended.
- Regularly inspect the ceramic stones for signs of damage or wear.

## Specific Safety Precautions for Use

- **Avoid Contact with Water:** While the ceramic stones are designed for use with water, do not immerse them for prolonged periods.
- **Use Appropriate Lubricants:** Always use water as a lubricant. Do not use oil or other substances that may damage the ceramic surface.
- **Clean Immediately After Use:** Wash the ceramic stones with detergent and warm water after each use to maintain their cutting surface.
- **Store Properly:** Store the ceramic stones in a safe place, away from direct sunlight and moisture.
- **Do Not Force Cuts:** Apply gentle pressure while using the ceramic stones to prevent breakage.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the ceramic stones are clean and dry before use.
- Select the appropriate shape (Square, Triangle, or Round) for your cutting needs.

### 2. Lubrication:

- Apply a small amount of water to the ceramic stone to act as a lubricant.

### 3. Cutting Technique:

- Hold the ceramic stone firmly and position it against the material you wish to cut.
- Use a smooth, even motion to achieve a clean cut.
- If cutting Hard Arkansas, ensure that you are applying consistent pressure for optimal results.

### 4. PostUse Care:

- After use, rinse the ceramic stones under warm water and wash with a mild detergent.
- Allow the stones to air dry completely before storing.

## Disposal Instructions

- Dispose of the ceramic stones in accordance with local regulations.

- If the ceramic stones are damaged beyond use, consider recycling options for ceramic materials where available.

## **Contact Information for Further Support**

For any safety inquiries or support related to your SHAPED CERAMIC STONES SPYDERCO TRIANGLE CERAMIC STONE, please refer to the product packaging for contact information.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your SHAPED CERAMIC STONES SPYDERCO TRIANGLE CERAMIC STONE. Thank you for your attention to safety.
