

FINALFINISH™ SYSTEM - DAVID TUBB 6MM (0.243") FINALFINISH BULLET KIT

[Gunsmith Tools](#) > [Rifle Tools](#) > [Receiver Tools](#)

Polishes Bore, Reduces Fouling, Gives Easier Cleaning

Abrasive coated bullets provide effective polishing to remove tool marks, rough areas and high spots in bore and throat. Eliminates the primary cause of lead and copper fouling and makes bore cleaning easier and less time consuming. Long, match type, jacketed bullets provide maximum bearing surface for efficient polishing action. Every caliber kit includes 10 bullets each, in five grades of compound to progressively smooth and polish bore.

Attributes

FINALFINISH™ SYSTEM DAVID TUBB 6MM (0.243") FINALFINISH BULLET KIT Safety Instructions

Introduction

Thank you for purchasing the FINALFINISH™ SYSTEM DAVID TUBB 6MM (0.243") FINALFINISH BULLET KIT. This product is designed to provide effective polishing of bore and throat surfaces, improving your firearm's performance and ease of cleaning. To ensure safe and effective use of this product, please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product before use to ensure it is in good condition.
- Do not use the product for purposes other than those intended.
- Report any unsafe products or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using this product.
- Ensure that the work area is clean, dry, and wellventilated.
- Avoid inhaling dust generated during the polishing process. Use a mask if necessary.
- Do not exceed the recommended number of passes with the bullets to avoid damaging the bore.
- Handle bullets with care to avoid injury.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your firearm is unloaded and pointed in a safe direction.
- Clean the bore of your firearm to remove any residual fouling.

2. Selecting the Right Bullet:

- Choose the appropriate grade of compound for your polishing needs. The kit includes five grades for progressive smoothing and polishing.

3. Using the Bullets:

- Insert the selected bullet into the cleaning rod.
- Apply the appropriate polishing compound to the bullet.
- Insert the bullet into the bore and begin polishing with a smooth, steady motion.
- For best results, rotate the bullet while moving it in and out of the bore.
- Repeat the process with progressively finer grades of compound until the desired finish is achieved.

4. Cleaning Up:

- After polishing, thoroughly clean the bore to remove any polishing residue.
- Store the bullets in the provided plastic storage box to keep them organized and protected.

Disposal Instructions

- Dispose of any used polishing compounds and materials in accordance with local regulations.
- Do not dispose of bullets or hazardous materials in regular household waste.

Contact Information for Further Support

For any inquiries regarding product safety or usage, please refer to the manufacturer's contact information provided with the product packaging or visit the official website.

Thank you for choosing the FINALFINISH™ SYSTEM DAVID TUBB 6MM (0.243") FINALFINISH BULLET KIT. Your safety and satisfaction are our top priorities.
