

# 308 AR ARMORER'S WRENCH - SMITH ENTERPRISE .308 ARMORER'S WRENCH

[Gunsmith Tools & Supplies](#) > [Rifle Tools](#) > [Wrenches](#)

Extra-heavy duty armorers wrench provides easier installation and removal of all barrels up to 1 $\frac{1}{4}$ " diameter with either encapsulated or peg-style barrel nuts. Extra-long handle features smooth, contoured edges for comfortable use. Includes  $\frac{1}{2}$ " square drive opening for torque wrench application; 5/8" and 3/4" slots fit receiver extensions and A1/A2 flash suppressors applications, .308 for use with AR-Style .308 rifles. 3/4 inch slot may not fit some brakes, flash hiders or comps with less than .410 long driving flats. Will NOT work with DPMS 20 tooth pattern .308 barrel nuts.

# Safety Instruction Guide for 308 AR ARMORER'S WRENCH SMITH ENTERPRISE

## Introduction

Thank you for choosing the 308 AR ARMORER'S WRENCH by Smith Enterprise. This tool is designed to assist in the installation and removal of barrels for ARstyle .308 rifles. To ensure safe and effective use, please read and follow all safety instructions provided in this guide.

## General Safety Guidelines

- Ensure that the wrench is used only for its intended purpose as specified in this guide.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use for any signs of damage or wear. Do not use if damaged.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the wrench.
- Store the wrench in a dry, secure place when not in use to prevent accidents.
- Report any unsafe conditions or incidents related to the tool to appropriate authorities.

## Specific Safety Precautions for Use

- The wrench is designed for barrels with a diameter of up to 1 $\frac{1}{4}$  inches. Do not attempt to use it on barrels larger than this.
- Ensure that the wrench fits properly on the barrel nut before applying force to avoid slipping or damaging the tool or the firearm.
- Do not exceed the recommended torque settings when using a torque wrench in conjunction with the 308 AR ARMORER'S WRENCH.
- The  $\frac{1}{2}$ " square drive opening is intended for use with standard torque wrenches only. Ensure compatibility before use.
- Be aware that the 3/4 inch slot may not fit some brakes, flash hiders, or compensators with less than .410 long driving flats.
- This tool is not compatible with DPMS 20 tooth pattern .308 barrel nuts. Using it on incompatible nuts may result in damage or injury.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and equipment, including the 308 AR ARMORER'S WRENCH and a torque wrench if needed.

### 2. Using the Wrench:

- Align the appropriate slot of the wrench with the barrel nut. Make sure it fits securely.
- If using a torque wrench, insert it into the  $\frac{1}{2}$ " square drive opening of the armorers wrench.
- Apply steady and even force to turn the barrel nut clockwise for installation or counterclockwise for removal.
- Avoid using excessive force, as this may damage the tool or the firearm.

### 3. PostUse:

- After use, clean the wrench to remove any debris or residue.

- Store the wrench in its designated place to prevent loss or damage.

## **Disposal Instructions**

- Dispose of the 308 AR ARMORER'S WRENCH in accordance with local regulations.
- If the tool is damaged beyond repair, consider recycling the metal components where applicable.

## **Contact Information for Further Support**

For any safety inquiries or concerns about the 308 AR ARMORER'S WRENCH, please refer to the manufacturer's contact information provided in the product packaging or documentation.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure safe and effective use of the 308 AR ARMORER'S WRENCH.
