[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Drill Bits](#)

U.S. Made

A heavy-duty drill can make all the difference in the world in your work. The extra engineering and care in manufacture will help you to drill cleaner, more accurate holes, and many more of them at that. All the Drills we carry, Sets, Individuals, Jobber Length and Short Length, are made from High Speed Steel with a 135° self-centering point. Special point and surface treatments (Maxi-Set not treated) give easier, more wear-resistant drilling of the tough steels encountered in the gun shop.

Introduction

Thank you for choosing the LETTER DRILLS JOBBER LENGTH from TRIUMPH TWIST DRILL CO. This guide provides essential safety instructions to ensure the safe and effective use of your drill. Please read this document carefully to understand how to operate your drill safely and responsibly.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when using the drill.
- Ensure that your work area is clean and welllit to avoid accidents.
- Keep the drill and its components out of reach of children and pets.
- Be aware of your surroundings and ensure that no one is in close proximity while drilling.
- Regularly inspect the drill for any signs of damage or wear before use.
- Follow all local regulations regarding the use of power tools.

Specific Safety Precautions for Use

- Use the drill only for its intended purpose: drilling holes in materials suitable for highspeed steel drills.
- Ensure that the drill bit is securely tightened in the chuck before starting to drill.
- Do not exceed the recommended drilling speed for the material being drilled.
- Avoid applying excessive force while drilling; let the drill do the work.
- Always keep hands and other body parts away from the drill bit during operation.
- If the drill binds or stalls, turn it off immediately and assess the situation before proceeding.
- Disconnect the drill from the power source when changing bits or making adjustments.

Instructions for Installation and Usage

1. Setting Up the Drill:

- Place the drill on a stable work surface.
- Ensure that the drill is unplugged before making any adjustments.

2. Installing the Drill Bit:

- Select the appropriate drill bit size (0.25" for this model).
- Open the chuck by turning it counterclockwise.
- Insert the drill bit into the chuck and tighten it securely by turning the chuck clockwise.

3. Using the Drill:

- Plug the drill into a suitable power outlet.
- Position the drill at the desired angle above the material to be drilled.
- Turn the drill on and begin drilling at a steady pace.
- Monitor the drill for any unusual noises or vibrations.

4. After Use:

- Turn off the drill and unplug it from the power source.
- Allow the drill to cool down before handling.
- Clean the drill and store it in a safe place.

Disposal Instructions

- Dispose of the drill according to local electronic waste regulations.
- Do not dispose of the drill in regular household waste.
- Consider recycling options available in your area.
