

SANDING DISCS - VSM ABRASIVES CORPORATION 6" (15.2CM) DISCS, 220 GRIT

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Discs](#)

Resinal Metalite Pressure-Sensitive Discs ... Fast Off/On Disc And Grit Change

Lay flatter, stick smoother than glue-on type with no glue lumps, giving much longer disc life with no high spots to wear down first. Edges stay down stopping "catch-and-tear" problems. Much easier and faster to change, with no cleanup between grit changes, and no cleanup of the sander. Special surface, resin bonded to the heavy cloth backing, prevents loading up of disc and drag-off of grit, so stays cutting longer and faster without clogging. For coarse-to-fine metal finishing, and all wood finishing. Sold in packs of 3 discs each.

Safety Instructions for VSM Abrasives Corporation 6" Sanding Discs, 220 Grit

Introduction

Thank you for choosing the VSM Abrasives Corporation 6" Sanding Discs, 220 Grit. These sanding discs are designed for effective metal and wood finishing. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the sanding discs are used only for their intended purpose.
- Always wear appropriate personal protective equipment (PPE) when using sanding discs, including safety goggles, dust masks, and hearing protection.
- Keep the work area clean and welllit to avoid accidents.
- Do not use sanding discs if they are damaged or worn out.
- Follow local regulations for the disposal of sanding discs and other materials.
- Be aware of any specific hazards associated with the materials you are sanding.

Specific Safety Precautions for Use

- Before use, inspect the sanding disc for any defects such as tears or uneven surfaces.
- Ensure that the sanding disc is properly attached to the sander before starting work.
- Do not exceed the maximum operating speed of the sander.
- Avoid excessive pressure while sanding, as this can lead to overheating and premature wear of the disc.
- Do not use sanding discs on materials that are not compatible with their grit type.
- Keep hands and body away from the sanding area to prevent injury.
- Ensure that children and pets are kept at a safe distance from the work area.

Instructions for Installation and Usage

1. Installation:

- Ensure the sander is unplugged before changing the sanding disc.
- Remove any old or worn sanding discs from the sander.
- Clean the sander's backing pad to ensure a secure fit.
- Align the new sanding disc with the backing pad and press firmly to attach.
- Ensure the disc is flat and secure before plugging in the sander.

2. Usage:

- Plug in the sander and turn it on according to the manufacturer's instructions.
- Start sanding at a low speed to ensure the disc adheres properly and to prevent damage.
- Gradually increase speed as needed, but do not exceed the recommended RPM for your sander.
- Move the sander in a consistent motion, avoiding excessive pressure.
- Regularly check the sanding disc for wear and replace it as necessary.

Disposal Instructions

- Dispose of used sanding discs in accordance with local waste disposal regulations.
- Do not dispose of sanding discs in regular household waste if they are classified as hazardous material.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any safety inquiries or further support regarding the use of VSM Abrasives Corporation sanding discs, please refer to the contact information provided on the packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective sanding experience. Always prioritize safety and stay informed about best practices for using sanding products.
