

SANDING BELTS - VSM ABRASIVES CORPORATION 80 GRIT 1 1/2" (3.8CM) X 18 15/16" (48.1CM)

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Belts](#)

To Fit Raytech Expanding Sanding Drums

About "Compact Grain" Belts - Aluminum Oxide Belts in super-fine grit (like 600) are only available in what the maker calls "Compact Grain". This process layers grit in a special adhesive and greatly increases belt life. Compact grain belts are easily identified; they are ugly! The 600 grit belt shown looks like it should be a 60 grit but IT ISN'T. It really will give a 600 grit finish and will last extremely well. Resin bonded, aluminum oxide. Sold singly.

Attributes

- Name: [VSM ABRASIVES CORPORATION 80 GRIT 1 1/2" \(3.8CM\) X 18 15/16" \(48.1CM\)](#)
- Manufacturer: [VSM ABRASIVES CORPORATION](#)
- Product no.: 925118080
- Mfr. No.:
- Grit: 80
- Size: 1 1/2 x 18 15/16
- Delivery weight: 0.018kg

Safety Instruction Guide for SANDING BELTS VSM ABRASIVES CORPORATION 80 GRIT

Introduction

Thank you for choosing the SANDING BELTS VSM ABRASIVES CORPORATION 80 GRIT. This guide provides essential safety instructions and information to ensure the safe use of this product. Please read and understand all guidelines before using the sanding belt.

General Safety Guidelines

- Always use the sanding belt in accordance with the manufacturer's instructions.
- Ensure that the sanding belt is compatible with your sanding machine.
- Inspect the sanding belt for damage before each use. Do not use if worn or damaged.
- Keep the workspace clean and free of clutter to avoid accidents.
- Use personal protective equipment (PPE) including safety goggles, dust masks, and hearing protection.
- Be aware of your surroundings and ensure that no one is in close proximity when operating the sanding machine.
- Store the sanding belt in a dry, cool place away from direct sunlight and moisture.

Specific Safety Precautions for Use

- Always follow the recommended speed settings for your sanding machine.
- Do not exceed the maximum operating speed of the sanding belt.
- Avoid applying excessive pressure while sanding; let the belt do the work.
- Do not use the sanding belt for materials other than those specified by the manufacturer.
- Do not use the sanding belt if it has been exposed to water or moisture.
- Keep hands and fingers away from the sanding area while the machine is in operation.
- Disconnect the sanding machine from the power source before changing the sanding belt.

Instructions for Installation and Usage

• Installation:

1. Disconnect the sanding machine from the power supply.
2. Remove any existing sanding belt from the machine.
3. Ensure the sanding drum is clean and free of debris.
4. Align the new sanding belt with the machine's pulleys.
5. Secure the sanding belt according to the manufacturer's instructions.
6. Check the alignment and tension of the belt before use.

• Usage:

1. Connect the sanding machine to the power supply.
2. Start the machine and allow it to reach the recommended speed.
3. Begin sanding by gently applying the belt to the workpiece.
4. Move the workpiece steadily across the belt to avoid uneven sanding.
5. After use, turn off the machine and disconnect it from the power supply.

Disposal Instructions

- Dispose of used sanding belts in accordance with local waste disposal regulations.
- Do not burn the sanding belts, as they may release harmful fumes.

- Recycle the sanding belt if possible, following your local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the SANDING BELTS VSM ABRASIVES CORPORATION 80 GRIT, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

Following these safety instructions will help ensure a safe and effective experience with the SANDING BELTS VSM ABRASIVES CORPORATION 80 GRIT. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention to these important guidelines.
