

SANDING BELTS - VSM ABRASIVES CORPORATION 1" (2.5CM) X 42" (106.7CM) SANDING BELT, 80 GRIT

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Belts](#)

To Fit Raytech Expanding Sanding Drums

About "Compact Grain" Belts - Aluminum Oxide Belts in super-fine grit (like 600) are only available in what the maker calls "Compact Grain". This process layers grit in a special adhesive and greatly increases belt life. Compact grain belts are easily identified; they are ugly! The 600 grit belt shown looks like it should be a 60 grit but IT ISN'T. It really will give a 600 grit finish and will last extremely well. Resin bonded, aluminum oxide. Sold singly.

Safety Instruction Guide for SANDING BELTS VSM ABRASIVES CORPORATION 1" (2.5CM) X 42" (106.7CM) SANDING BELT, 80 GRIT

Introduction

Thank you for choosing the SANDING BELTS VSM ABRASIVES CORPORATION 1" (2.5CM) X 42" (106.7CM) SANDING BELT, 80 GRIT. This guide provides essential safety instructions to ensure your safe use of this product. It complies with the EU General Product Safety Regulation (GPSR) to protect consumers and promote safe usage.

General Safety Guidelines

- Always read and understand the safety instructions before using the sanding belt.
- Ensure that the sanding belt is compatible with your sanding machine.
- Keep the sanding belt out of reach of children and vulnerable individuals.
- Regularly inspect the sanding belt for any signs of damage or wear before each use.
- Follow all manufacturer guidelines for the operation of your sanding machine.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety goggles, dust masks, and hearing protection while using the sanding belt.
- Ensure proper ventilation in the workspace to avoid inhaling dust particles.
- Do not exceed the maximum operating speed of the sanding belt as indicated by the manufacturer.
- Avoid contact with the sanding belt while it is in motion to prevent injuries.
- Do not use the sanding belt for purposes other than those intended by the manufacturer.

Instructions for Installation and Usage

1. Installation:

- Disconnect the sanding machine from the power source before installing the sanding belt.
- Open the sanding machine's cover according to the manufacturer's instructions.
- Remove any old sanding belt and clean the area of any debris.
- Align the new sanding belt with the rollers, ensuring it is properly seated in the machine.
- Close the sanding machine's cover securely.
- Reconnect the power source.

2. Usage:

- Adjust the speed settings of your sanding machine according to the material you are sanding.
- Hold the workpiece firmly against the sanding belt, applying even pressure.
- Move the workpiece smoothly to avoid gouging or uneven surfaces.
- Periodically check the sanding belt for wear and replace it as necessary.
- After use, turn off the sanding machine and allow the sanding belt to come to a complete stop before removing the workpiece.

Disposal Instructions

- Dispose of the sanding belt according to local regulations regarding waste materials.
- Do not dispose of the sanding belt in regular household waste if it is considered hazardous.
- Check for recycling options for materials that can be recycled.

Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the manufacturer's contact details provided with the product packaging or visit their official website.

Thank you for following these safety instructions. Your safety is our priority.
