

# **SANDING BELTS - VSM ABRASIVES CORPORATION 60 GRIT 3" (7.6CM) X 25 7/32" (64CM)**

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Belts](#)

## **To Fit Raytech Expanding Sanding Drums**

About "Compact Grain" Belts - Aluminum Oxide Belts in super-fine grit (like 600) are only available in what the maker calls "Compact Grain". This process layers grit in a special adhesive and greatly increases belt life. Compact grain belts are easily identified; they are ugly! The 600 grit belt shown looks like it should be a 60 grit but IT ISN'T. It really will give a 600 grit finish and will last extremely well. Resin bonded, aluminum oxide. Sold singly.

## **Attributes**

- Name: [VSM ABRASIVES CORPORATION 60 GRIT 3" \(7.6CM\) X 25 7/32" \(64CM\)](#)
- Manufacturer: [VSM ABRASIVES CORPORATION](#)
- Product no.: 925325060
- Mfr. No.: 79846
- Grit: 60
- Size: 3 x 25 7/32
- Delivery weight: 0.059kg
- Shipping height: 76mm
- Shipping width: 117mm
- Shipping length: 267mm

# Safety Instruction Guide for SANDING BELTS VSM ABRASIVES CORPORATION 60 GRIT

## Introduction

Thank you for choosing the SANDING BELTS VSM ABRASIVES CORPORATION 60 GRIT. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before use.

## General Safety Guidelines

- Ensure the product is suitable for your intended use.
- Always follow the instructions provided in this guide.
- Inspect the sanding belt for any damage before use.
- Keep the sanding belt out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including:
  - Safety goggles to protect your eyes from dust and debris.
  - Dust mask or respirator to avoid inhaling fine particles.
  - Hearing protection if using power tools with the sanding belt.
- Ensure proper ventilation in the work area to minimize dust accumulation.
- Do not exceed the maximum operating speed of the sanding belt.
- Avoid using the sanding belt on materials that may create hazardous dust or fumes.
- Do not use the sanding belt for any purpose other than its intended use.
- Keep hands and other body parts away from the sanding area during operation.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the sanding belt is compatible with your sanding machine.
- Disconnect the power supply before installation.
- Remove any old or damaged sanding belts from the machine.
- Align the new sanding belt with the machine's rollers and ensure it is seated correctly.
- Reconnect the power supply and check that the sanding belt is properly installed before use.

### 2. Usage:

- Start the machine according to the manufacturer's instructions.
- Allow the sanding belt to reach full speed before making contact with the material.
- Apply even pressure while sanding to avoid overheating the belt and material.
- Regularly check the sanding belt for wear and replace it when necessary.
- Turn off the machine and disconnect the power supply when finished.

## Disposal Instructions

- Dispose of used sanding belts in accordance with local regulations.
- Do not dispose of sanding belts in regular household waste.
- Consider recycling options if available in your area.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please contact the manufacturer or your local distributor. Ensure you have the product details ready for reference.

By following these safety instructions, you can ensure a safe and effective sanding experience with the SANDING BELTS VSM ABRASIVES CORPORATION 60 GRIT. Thank you for your attention to safety.
