

SANDING BELTS - VSM ABRASIVES CORPORATION 80 GRIT 3" (7.6CM) X 25 7/32" (64CM)

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Belts](#)

To Fit Raytech Expanding Sanding Drums

About "Compact Grain" Belts - Aluminum Oxide Belts in super-fine grit (like 600) are only available in what the maker calls "Compact Grain". This process layers grit in a special adhesive and greatly increases belt life. Compact grain belts are easily identified; they are ugly! The 600 grit belt shown looks like it should be a 60 grit but IT ISN'T. It really will give a 600 grit finish and will last extremely well. Resin bonded, aluminum oxide. Sold singly.

Attributes

- Name: [VSM ABRASIVES CORPORATION 80 GRIT 3" \(7.6CM\) X 25 7/32" \(64CM\)](#)
- Manufacturer: [VSM ABRASIVES CORPORATION](#)

Safety Instruction Guide for SANDING BELTS VSM ABRASIVES CORPORATION 80 GRIT 3" x 25 7/32"

Introduction

Thank you for choosing the SANDING BELTS VSM ABRASIVES CORPORATION 80 GRIT 3" x 25 7/32". This guide provides essential safety instructions to ensure the safe use of this product. Please read this document carefully before using the sanding belt to minimize risks and enhance your safety.

General Safety Guidelines

- Always read and follow the manufacturer's instructions.
- Ensure that the sanding belt is compatible with your sanding machine.
- Inspect the sanding belt for any damage before each use.
- Use personal protective equipment (PPE) such as safety goggles, dust masks, and hearing protection.
- Keep the work area clean and welllit to avoid accidents.
- Ensure that children and pets are kept away from the work area during use.
- Do not use the sanding belt for any purpose other than its intended use.

Specific Safety Precautions for Use

- Avoid contact with the rotating sanding belt while in operation.
- Do not wear loose clothing or jewelry that may become entangled in the sanding belt.
- Ensure the sanding machine is properly secured and stable before use.
- Be cautious of dust generated during sanding; use a dust extraction system if possible.
- Do not exceed the maximum operating speed of the sanding belt.
- Always turn off and unplug the sanding machine when changing belts or making adjustments.

Instructions for Installation and Usage

1. Installation:

- Turn off and unplug the sanding machine.
- Remove any existing sanding belt by following the manufacturer's instructions.
- Inspect the new sanding belt for any visible damage.
- Align the sanding belt with the pulleys according to the machine's specifications.
- Ensure that the sanding belt is properly tensioned and secured.
- Plug in and turn on the machine to check for proper operation.

2. Usage:

- Start the sanding machine and allow it to reach full speed.
- Apply light pressure to the workpiece; do not force the sanding belt.
- Move the workpiece steadily against the sanding belt to achieve a smooth finish.
- Monitor the sanding process to avoid overheating the belt or workpiece.
- After use, turn off the machine and unplug it before cleaning or changing belts.

Disposal Instructions

- Dispose of used sanding belts in accordance with local regulations.
- Do not dispose of sanding belts in regular household waste if they contain hazardous materials.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the SANDING BELTS VSM ABRASIVES CORPORATION 80 GRIT 3" x 25 7/32", please refer to the manufacturer's contact information provided with the product packaging.

Reporting Unsafe Products

If you encounter any unsafe products or accidents related to this sanding belt, please report them to the appropriate authorities. Additionally, stay informed about any recalls or safety updates by checking the EU's Safety Gate platform.

Thank you for prioritizing safety while using our products.
