To Fit Raytech Expanding Sanding Drums

About "Compact Grain" Belts - Aluminum Oxide Belts in super-fine grit (like 600) are only available in what the maker calls "Compact Grain". This process layers grit in a special adhesive and greatly increases belt life. Compact grain belts are easily identified; they are ugly! The 600 grit belt shown looks like it should be a 60 grit but IT ISN'T. It really will give a 600 grit finish and will last extremely well. Resin bonded, aluminum oxide. Sold singly.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the sanding belts before each use for any signs of damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay updated on product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) including:
 - Safety goggles to protect your eyes.
 - Dust mask or respirator to avoid inhaling dust particles.
 - Hearing protection if using power tools that generate noise.
- Ensure that the work area is clean and free from hazards.
- Avoid using the sanding belts in wet or damp conditions.
- Do not exceed the recommended speed limits for your sanding equipment.
- Never bypass safety features on power tools when using sanding belts.
- Always ensure that the sanding belt is securely attached to the machine before use.

Instructions for Installation and Usage

1. Installation:

- Turn off and unplug the power tool before installing the sanding belt.
- Remove any old or damaged sanding belts from the tool.
- Align the new sanding belt with the tool's rollers and ensure it fits snugly.
- Secure the sanding belt according to the manufacturer's instructions.
- Check that the sanding belt is properly tensioned and aligned.

2. Usage:

- Start the power tool and allow it to reach full speed before making contact with the workpiece.
- Apply light and even pressure while sanding to avoid damaging the workpiece or the sanding belt.
- Regularly check the sanding belt for wear and replace it if necessary.
- After use, turn off and unplug the power tool before removing the sanding belt.

Disposal Instructions

- Dispose of used sanding belts in accordance with local regulations.
- Do not burn sanding belts as they may release harmful substances.
- Consider recycling options if available in your area.
