

M4/CAR-15 EXTRA POWER CARBINE BUFFER SPRING - SPRINCO USA AR .308 BUFFER SPRING

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Extra Power Buffer Spring. This was Sprinco's first AR buffer spring solution that they were tasked to design back in 2006 for a Force Modernization Team to specifically address spring-related M4 carbine reliability function issues for operating challenges in the Eastern Asia Theatre. The design loads of the Red spring are approximately 25% greater than the White spring for one of the considered Load Constants in the spring design. Refer to provided tuning procedure reference documents prior to calling for recommendations for use. The Red spring is commonly used in 9mm, 6.8 SPC, 6.5 Grendel, .450 BM, .450 SOCOM, .500 Beowulf, and Colt LE6920's specimen carbines, but certain specimen guns can deviate from the norm depending upon port values and the power factor of your chosen ammunition loads.

Attributes

- Name: [SPRINCO USA AR .308 BUFFER SPRING](#)
- Manufacturer: [SPRINCO USA](#)
- Product no.: 943000032
- Mfr. No.: 25004
- Delivery weight: 0.077kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 337mm
- UPC: 657780250042

M4/CAR15 Extra Power Carbine Buffer Spring

Safety Instructions

Introduction

Thank you for choosing the M4/CAR15 Extra Power Carbine Buffer Spring by Sprinco USA. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this document carefully before installing or using the buffer spring.

General Safety Guidelines

- Ensure that the buffer spring is compatible with your firearm model.
- Always follow the manufacturer's instructions for installation and use.
- Keep the buffer spring out of reach of children and vulnerable individuals.
- Inspect the buffer spring regularly for signs of wear or damage.
- Report any unsafe conditions or accidents related to the product to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for your firearm.
- Ensure that the buffer spring is installed correctly to avoid malfunctions.
- Use only recommended ammunition types to prevent excessive wear and function issues.
- Avoid using the buffer spring in extreme environmental conditions unless specified.
- Wear appropriate safety gear, such as eye protection, when handling firearms.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your firearm is unloaded and in a safe condition before beginning installation.
- Gather necessary tools for installation, including a wrench and any other required equipment.

2. Installation:

- Remove the existing buffer spring from your firearm according to the manufacturer's guidelines.
- Carefully install the M4/CAR15 Extra Power Carbine Buffer Spring in place of the old spring, ensuring it is seated properly.
- Doublecheck that all components are securely fastened and that the buffer spring is correctly aligned.

3. Usage:

- Test the firearm in a safe environment to ensure that the buffer spring operates correctly.
- Monitor the performance of the buffer spring during use and be alert for any irregularities.
- If any issues arise, cease use immediately and consult a qualified gunsmith.

Disposal Instructions

- Dispose of the buffer spring in accordance with local regulations regarding metal waste.
- Do not dispose of the buffer spring in regular household waste.
- Consider recycling options for metal components if available.

Contact Information for Further Support

For any questions or concerns regarding the M4/CAR15 Extra Power Carbine Buffer Spring, please refer to the manufacturer's website or contact a qualified professional for assistance.

Thank you for prioritizing safety while using the M4/CAR15 Extra Power Carbine Buffer Spring. Your attention to these guidelines helps ensure a safe and enjoyable experience.
