Wilson Combat applied 30 years of experience building high-performance 1911 magazines to develop this ultra-reliable magazine for combat, competition, or self-defense. Made with state-of-the-art materials using the latest manufacturing technology, these single-stack magazines are built tough to keep running in unforgiving, real-world conditions. The body formed from extra-thick stainless steel, with the radius of each curve engineered to minimize stress points, virtually eliminates feed lip cracking and stress fatigue. Even the position of the witness slots toward the rear is designed to enhance structural integrity. A proprietary welding, deburring, and polishing process provides an unusually strong, super-smooth seam to ensure snag-free follower movement and easy insertion in the mag well. The non-tilt follower of self-lubricating polymer fully supports the ammo stack to prevent nose-dives, double feeds, and other hang-ups. The mag body design puts less tension on the spring than standard magazines, increasing spring life and making it easy to seat a fully loaded magazine with the slide closed. The polymer base pad adds minimal bulk yet ensures a firm purchase even when your hands are wet; removes easily for cleaning. Numbers 1 through 10 stamped on the bottom help you mark each of your magazines to track usage and performance. .45 ACP fits Gov't Model; 8 round capacity; round-count numbers stamped on body next to witness holes. Available in natural Silver or Black Oxide finish in singles or in convenient, money-saving 3-Paks with or without a Michael's of Oregon double mag pouch of rugged, high-impact Kydex® molded polymer.
