Vickers Elite Snag Free Fiber Optic Front Sights

Safety Instructions

Introduction

Thank you for choosing the Vickers Elite Snag Free Fiber Optic Front Sights for your Glock® firearm. This guide provides important safety information and instructions to ensure the safe use and installation of your new front sights. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the product is suitable for your specific model of Glock® (9mm, .40, .357, or .45 GAP).
- Always handle firearms with care and follow all standard safety practices.
- Keep the product out of reach of children and unauthorized users.
- Inspect the sights regularly for any signs of damage or wear.
- Do not attempt to modify the sights in any way, as this may compromise safety and performance.
- If you experience any issues with the sights, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Use only the recommended front sight wrench included with the product for installation.
- Ensure that the firearm is unloaded before installing or adjusting the sights.
- Avoid looking directly into the fiber optic rod when exposed to bright light, as this may cause temporary visual discomfort.
- Be cautious when using the firearm in conditions where visibility may be impaired, as the fiber optic sights are designed for optimal performance in good lighting conditions.
- Always ensure that the sights are properly aligned and securely attached before using the firearm.

Instructions for Installation and Usage

1. Unloading the Firearm:

- Ensure the firearm is completely unloaded.
- Remove the magazine and check the chamber to confirm it is empty.

2. Removing the Old Front Sight:

- Use the front sight wrench to carefully unscrew and remove the existing front sight.
- Keep the old sight and screws in a safe place in case you need them later.

3. Installing the New Front Sight:

- Align the new Vickers Elite Front Sight with the mounting hole on the slide.
- Using the front sight wrench, gently screw the new sight into place until it is secure. Do not overtighten, as this may strip the threads.

4. Checking Alignment:

- After installation, visually inspect the alignment of the front sight to ensure it is straight and properly positioned.

5. Testing the Sights:

- Before using the firearm in a live setting, test the new sights in a safe environment to ensure they

function correctly.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the sights become damaged or are no longer usable, dispose of them responsibly, ensuring they do not pose a risk to others.

Contact Information for Further Support

For any questions regarding the installation, use, or safety of the Vickers Elite Snag Free Fiber Optic Front Sights, please refer to your local authorized dealer or manufacturer's website for assistance.

Conclusion

Your safety is our priority. By following these guidelines, you can ensure the safe use of your Vickers Elite Snag Free Fiber Optic Front Sights. Always stay informed about product recalls and safety updates through the appropriate channels. Thank you for your attention to safety and enjoy your shooting experience!
