An Ambidextrous Charging Handle Designed for Your AR-15

Mil-spec AR-15 charging handles are not especially great designs, particularly for left-handed shooters or those who prefer to charge their guns with a single swipe of their support hand. The Wilson Combat Bullet Proof Ambidextrous Charging Handle specifically addresses some of the weaknesses of the mil-spec design and makes for a great upgrade on any mil-spec rifle. Each Wilson Combat Bullet Proof Ambidextrous Charging Handle features oversized latches that can be manipulated easily, even when using gloved hands. The handles are machined from billet aluminum and feature a redesign that eliminates the weak points commonly found in mil-spec charging handles. There are three differently sized latches available for the Bullet Proof charging handle, so users can find the latch size that fits their firearm and shooting style best. All Wilson Combat Bullet Proof Ambidextrous Charging Handles are treated with a hard-anodized black finish and feature an extended upper shelf that deflects gas away from a shooter's face, making the handle great for suppressed firearms. The latches also feature heavy-duty springs and piston assemblies that keep the handle locked into position during heavy, full-auto fire. Fits Any Standard AR-15 Style Charging Handle The extension for your charging handle release will get your tactical rifle in action fast. Adding 1 inch to the charging handle with a forward bend allows you to chamber ammunition without taking your eyes off your target. By allowing you to lock your bolt back fast, the charging handle extension also permits rapid clearance of malfunctions. Fits any standard AR-15 style charging handle.

Safety Instruction Guide for Wilson Combat AR15 Ambidextrous Charging Handle

Introduction

Thank you for choosing the Wilson Combat AR15 Ambidextrous Charging Handle. This product is designed to enhance the functionality of your AR15 rifle while ensuring user safety. Please read this safety instruction guide carefully to ensure proper use and maintenance of your charging handle.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure that the firearm is pointed in a safe direction at all times.
- Keep your finger off the trigger until you are ready to shoot.
- Be aware of your surroundings and ensure that you have a clear line of sight before charging your firearm.
- Regularly inspect your charging handle and firearm for any signs of wear or damage.
- Store your firearm and charging handle securely, out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding firearm ownership and use.

Specific Safety Precautions for Use

- Use the charging handle only with AR15 style rifles.
- Ensure that the rifle is unloaded before installing or adjusting the charging handle.
- Always wear appropriate eye and ear protection when using your firearm.
- Avoid using the charging handle with excessively worn or damaged components.
- If you experience any malfunctions while using the charging handle, cease use immediately and consult a qualified gunsmith.
- Do not modify the charging handle in any way that could compromise its integrity or safety.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing charging handle from the receiver by pulling it out of the upper receiver.
- Align the Wilson Combat Ambidextrous Charging Handle with the receiver and slide it into place.
- Ensure that it is securely seated and that the latches are functioning correctly.

2. Usage:

- To charge the firearm, grasp the oversized latches with your support hand.
- Pull the charging handle to the rear until the bolt is locked back.
- Release the handle smoothly to allow the bolt to return to its forward position.
- To chamber a round, pull the charging handle back and release it while maintaining focus on your target.

3. Maintenance:

- Regularly clean the charging handle with a suitable solvent to remove dirt and debris.
- Inspect the latches and springs for wear and replace them if necessary.
- Store the charging handle in a dry place to prevent corrosion.

Disposal Instructions

- Dispose of the charging handle in accordance with local regulations regarding metal and firearm component disposal.
- Do not dispose of the charging handle in regular household waste.
- Contact your local waste management authority for guidance on the proper disposal methods.

Contact Information for Further Support
