An Ambidextrous Charging Handle Designed for Your AR-15

Mil-spec AR-15 charging handles are not especially great designs, particularly for left-handed shooters or those who prefer to charge their guns with a single swipe of their support hand. The Wilson Combat Bullet Proof Ambidextrous Charging Handle specifically addresses some of the weaknesses of the mil-spec design and makes for a great upgrade on any mil-spec rifle. Each Wilson Combat Bullet Proof Ambidextrous Charging Handle features oversized latches that can be manipulated easily, even when using gloved hands. The handles are machined from billet aluminum and feature a redesign that eliminates the weak points commonly found in mil-spec charging handles. There are three differently sized latches available for the Bullet Proof charging handle, so users can find the latch size that fits their firearm and shooting style best. All Wilson Combat Bullet Proof Ambidextrous Charging Handles are treated with a hard-anodized black finish and feature an extended upper shelf that deflects gas away from a shooter's face, making the handle great for suppressed firearms. The latches also feature heavy-duty springs and piston assemblies that keep the handle locked into position during heavy, full-auto fire. Fits Any Standard AR-15 Style Charging Handle The extension for your charging handle release will get your tactical rifle in action fast. Adding 1 inch to the charging handle with a forward bend allows you to chamber ammunition without taking your eyes off your target. By allowing you to lock your bolt back fast, the charging handle extension also permits rapid clearance of malfunctions. Fits any standard AR-15 style charging handle.

Safety Instruction Guide for Wilson Combat AR15 Ambidextrous Charging Handles

Introduction

Thank you for choosing the Wilson Combat AR15 Ambidextrous Charging Handle. This product is designed to enhance the functionality of your AR15 rifle while ensuring safe operation. Please read this safety instruction guide carefully to understand how to use, install, and dispose of the charging handle safely.

General Safety Guidelines

To ensure safe use of the Wilson Combat AR15 Ambidextrous Charging Handle, please adhere to the following guidelines:

- Always treat your firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Ensure that the charging handle is properly installed before use.
- Regularly inspect the charging handle for any signs of wear or damage.
- Use the charging handle in a safe environment, free from distractions.
- Follow all local laws and regulations regarding firearm use and handling.
- Store the charging handle and your firearm securely when not in use.

Specific Safety Precautions for Use

When using the Wilson Combat AR15 Ambidextrous Charging Handle, please observe the following precautions:

- Ensure that your hands are dry and free from any substances that may affect grip.
- Do not attempt to force the charging handle if it is stuck; check for obstructions.
- Use gloves that provide a good grip when operating the charging handle, especially in adverse conditions.
- Be aware of your surroundings and ensure that no one is in the line of fire when charging the firearm.
- If using the charging handle with a suppressed firearm, be mindful of gas deflection towards your face.
- Always wear appropriate eye and ear protection when operating your firearm.

Instructions for Installation and Usage

Follow these steps to properly install and use the Wilson Combat AR15 Ambidextrous Charging Handle:

1. Installation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Remove the existing charging handle from your rifle by pulling the rear takedown pin and separating the upper and lower receivers.
- Carefully slide the old charging handle out of the upper receiver.
- Insert the Wilson Combat charging handle into the upper receiver, ensuring it is aligned correctly.
- Reassemble the upper and lower receivers, securing the rear takedown pin.

2. Usage:

- To charge the firearm, grip the oversized latch of the charging handle firmly.
- Pull the handle back smoothly to chamber a round or clear a malfunction.
- Release the handle to allow it to return to its forward position.
- If using gloves, ensure they do not hinder your grip or movement.

Disposal Instructions

When it becomes necessary to dispose of the Wilson Combat AR15 Ambidextrous Charging Handle, please follow these guidelines:

- Do not dispose of the charging handle in regular household waste.
- Check with local waste management authorities for proper disposal methods for aluminum materials.
- If the charging handle is damaged or no longer functional, consider recycling it at a designated recycling facility.
