## Provides Long-Term Reliability

One of the often-overlooked components of an AR build is the gas tube. Oftentimes, AR builders and owners forget how critical this part of the rifle is and how added quality in this essential aspect of the AR can make all the difference in the long-term reliability of a rifle. With this Wilson Combat Intermediate-Length Gas Tube, you'll be confident that you've got a high-quality component you can count on. Each Wilson Combat Intermediate-Length Gas Tube is constructed by a trusted government contractor that holds the tube dimensions to strict military specifications, ensuring complete compatibility with all mil-spec AR components on the market. The tube is made from corrosion-resistant stainless steel and measures 13.25 inches in length. The gas-block roll pin holding the tube in place on the block is not included.
