# RUGER® 77® MKII™ TUNEUP SPRING PAK Safety Instruction Guide

## Introduction

Thank you for choosing the RUGER® 77® MKII™ TUNEUP SPRING PAK. This guide provides essential safety instructions and guidelines to ensure the safe use, installation, and maintenance of your product. Please read this document carefully before use.

## General Safety Guidelines

- Ensure that all safety precautions are followed during the use of the RUGER® 77® MKII™ TUNEUP SPRING PAK.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Store the product in a secure location, out of reach of children and unauthorized users.
- Regularly check for any signs of wear or damage to the springs and other components.
- If you notice any irregularities or malfunctions, discontinue use immediately and seek professional assistance.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- The reduced power trigger/sear spring is designed specifically for Ruger 77/22 models chambered in .17 HMR, .17 Mach, .22 LR, .22 WMR, and the 77/44.
- This spring is not suitable for use in discontinued Model 77 or Ruger 77 MKII target models and Hawkeye series.
- Ensure that the firearm is unloaded and pointed in a safe direction before performing any installation or maintenance.
- Wear appropriate safety gear, such as safety glasses, when handling springs and other firearm components.
- Keep hands and fingers clear of moving parts during installation and operation.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and in a safe condition.
- Gather all necessary tools and the RUGER® 77® MKII™ TUNEUP SPRING PAK components.

### 2. Installation of the Extra Power Striker Spring:

- Remove the bolt from the firearm.
- Follow the manufacturer's instructions to safely access the striker mechanism.
- Replace the existing striker spring with the new 24 lb. Blitzschnell striker spring included in the kit.
- Ensure the spring is seated properly and reassemble the bolt.

### 3. Installation of the Reduced Power Trigger/Sear Spring:

- Access the trigger assembly by following the manufacturer's disassembly instructions.
- Remove the existing trigger/sear spring carefully.
- Install the new reduced power trigger/sear spring, ensuring correct orientation and seating.
- Reassemble the trigger assembly and ensure all parts function smoothly.

#### **4. Final Checks:**

- Once all installations are complete, check the functionality of the firearm.
- Perform a function test to ensure that the trigger and striker operate correctly.
- Store the firearm in a secure location.

## **Disposal Instructions**

- Dispose of any old or unused springs and components in accordance with local regulations.
- Do not dispose of firearm components in regular household waste.
- Contact local waste management authorities for guidance on the proper disposal of hazardous materials.

## **Contact Information for Further Support**

For any inquiries regarding the RUGER® 77® MKII™ TUNEUP SPRING PAK, including safety concerns or product support, please refer to the manufacturer's official website or customer service channels.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your RUGER® 77® MKII™ TUNEUP SPRING PAK. Thank you for prioritizing safety.
