MARLIN REDUCED POWER HAMMER & FINGER LEVER SPRING KIT SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Marlin Reduced Power Hammer & Finger Lever Spring Kit by Wolff. This kit is designed to enhance the performance of your firearm by reducing the trigger pull weight and the effort required to lock the lever in place. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always treat firearms as if they are loaded.
- Store springs and all firearm components out of reach of children and unauthorized users.
- Inspect the product before use to ensure it is in good condition.
- Follow all local laws and regulations regarding firearm modifications.
- Use the product only for its intended purpose.
- Report any unsafe products or accidents to the authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use caution when handling springs, as they can be under tension and may cause injury if released suddenly.
- Wear safety glasses to protect your eyes from potential debris when installing or using the springs.
- Ensure that the firearm is unloaded before beginning installation.
- Do not modify the springs beyond their intended design, as this may create safety hazards.
- Be aware of the potential for increased trigger sensitivity, which may affect firearm handling.

Instructions for Installation and Usage

1. Preparation

- Ensure your firearm is unloaded and in a safe working environment.
- Gather necessary tools for installation, including screwdrivers and pliers.

2. Installation Steps

- Remove the existing hammer and finger lever springs from your firearm according to the manufacturer's instructions.
- Carefully install the straight body reduced power hammer spring in place of the original hammer spring.
- Install the reduced power finger lever spring to replace the original finger lever spring.
- Ensure that both springs are securely in place and properly seated.

3. PostInstallation Checks

- After installation, perform a function check to ensure the firearm operates correctly with the new springs.
- Test the trigger pull and lever closing effort to confirm that they meet your expectations.
- If any issues are detected, consult a qualified gunsmith for assistance.

4. Usage Guidelines

- Familiarize yourself with the new trigger pull and lever operation before using the firearm in a live setting.
- Always prioritize safety and proper handling techniques when using your firearm.

Disposal Instructions

- Dispose of any old springs and packaging materials in accordance with local waste disposal regulations.
- Do not dispose of springs in a manner that may cause injury to others or harm to the environment.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Marlin Reduced Power Hammer & Finger Lever Spring Kit, please consult the manufacturer's website or customer service. Ensure you have your product details ready for a more efficient response.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your Marlin Reduced Power Hammer & Finger Lever Spring Kit. Thank you for prioritizing safety!
