# **RUGER® 77® MKII™ TUNEUP SPRING PAK & INDIVIDUAL SPRINGS WOLFF REDUCED POWER SEAR/TRIGGER SPRING, 3 PAK Safety Instructions**

## **Introduction**

Thank you for choosing the RUGER® 77® MKII™ TUNEUP SPRING PAK. This product is designed to enhance the performance of your firearm. However, it is important to follow safety guidelines to ensure safe usage and compliance with regulations. This guide provides essential safety instructions and recommendations for proper handling, installation, and disposal of the product.

## **General Safety Guidelines**

- Ensure that all firearm modifications comply with local laws and regulations.
- Use only authorized parts and accessories to maintain safety and functionality.
- Always handle firearms with care and respect, treating every firearm as if it is loaded.
- Store firearms and related components securely, out of reach of children and unauthorized users.
- Regularly inspect your firearm and its components for wear and damage.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

## **Specific Safety Precautions for Use**

- Only use this product in firearms that are compatible with the RUGER® 77® MKII™ specifications.
- Do not attempt to modify or alter the springs beyond the manufacturer's specifications.
- Keep hands and body away from the firearm's action while loading, unloading, or handling.
- Ensure that the firearm is pointed in a safe direction during installation and use.
- Wear appropriate safety gear, including eye protection, when working with firearms.
- Be aware of the potential for increased firing sensitivity when using reduced power springs.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Ensure that the firearm is unloaded and the chamber is clear.
- Gather all necessary tools for installation, including a screwdriver and any specific tools recommended by the firearm manufacturer.

### **2. Installation of Reduced Power Sear/Trigger Spring:**

- Remove the action from the stock according to the manufacturer's instructions.
- Carefully remove the existing trigger/sear spring.
- Install the reduced power trigger/sear spring by aligning it correctly in the designated slot.
- Reassemble the action and ensure that all components are secure.

### **3. Installation of Blitzschnell Striker Spring:**

- Follow the same initial steps as above to access the striker assembly.
- Remove the existing striker spring and replace it with the 24 lb. Blitzschnell striker spring.
- Ensure that the spring is seated properly before reassembling the action.

### **4. Final Checks:**

- After installation, conduct a function check to ensure that the firearm operates correctly.
- Test the trigger pull and ensure smooth operation without any binding or unusual resistance.
- Store the firearm in a safe location once all checks are complete.

## **Disposal Instructions**

- Dispose of any old or unused springs and components in accordance with local regulations.
- Do not dispose of firearm components in regular household waste. Instead, contact local waste management authorities for proper disposal methods.
- Ensure that any disposed components cannot be reused or accessed by unauthorized individuals.

## **Contact Information for Further Support**

For any questions or concerns regarding the RUGER® 77® MKII™ TUNEUP SPRING PAK, please refer to the manufacturer's website or contact their customer support for assistance. It is important to ensure that you have the most accurate and up-to-date information regarding your product.

By following these guidelines, you can ensure safe handling and operation of your RUGER® 77® MKII™ TUNEUP SPRING PAK. Always prioritize safety and compliance with regulations to protect yourself and others. Thank you for your attention to these important safety instructions.
