S&W Reduced Power Rebound Spring 12 lb. Model 1, Refill Pak Safety Instructions

Introduction

Thank you for choosing the S&W Reduced Power Rebound Spring 12 lb. Model 1, Refill Pak. This product is designed to enhance the performance of your Smith & Wesson revolver by allowing precise tuning of trigger pulls. Please read this safety instruction guide carefully to ensure the safe use of this product and to understand your rights under the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always ensure that the firearm is unloaded before performing any modifications or installations.
- Keep the product out of reach of children and unauthorized users.
- Use the product only for its intended purpose as specified.
- Regularly inspect the springs for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the modification of firearms.
- Report any unsafe product experiences to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure you are knowledgeable about the operation of your Smith & Wesson revolver before installing the springs.
- Use protective eyewear when handling springs to prevent injury from accidental release.
- Do not exceed the recommended weight specifications for your specific revolver model.
- Avoid using the springs in combination with other modifications unless specified by the manufacturer.
- If you experience any malfunctions or unusual behavior from your firearm after installation, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure that your workspace is clean and free of distractions.
- Gather necessary tools, including a screwdriver and any additional tools specified by the manufacturer.

2. Installation Steps

- Unload your Smith & Wesson revolver and ensure it is pointed in a safe direction.
- Remove the grip to access the internal components of the trigger mechanism.
- Carefully remove the existing rebound spring, taking note of its orientation.
- Select the desired weight of the new rebound spring from the refill pak.
- Install the new spring, ensuring it is positioned correctly as per the manufacturer's guidelines.
- Reassemble the grip and ensure all components are secure.

3. Testing

- After installation, conduct a function check to ensure the trigger operates smoothly.
- Test the revolver in a safe environment, ensuring proper operation before regular use.

Disposal Instructions

- Dispose of any old springs and packaging materials in accordance with local regulations.
- Do not throw away springs in regular household waste; check for recycling options in your area.
- If you are unsure how to dispose of the product safely, contact your local waste management facility for guidance.

Contact Information for Further Support

For any further inquiries or concerns regarding the S&W Reduced Power Rebound Spring, please refer to the manufacturer's website or contact their customer service. Ensure you have the product model and any relevant information ready for assistance.

Thank you for your attention to these safety instructions. Enjoy your enhanced shooting experience with your Smith & Wesson revolver!
