S&W Reduced Power Rebound Spring 13 lb. Model 2, Refill Pak Safety Instruction Guide

Introduction

Thank you for choosing the S&W Reduced Power Rebound Spring 13 lb. Model 2, Refill Pak. This product is designed to enhance the performance of your Smith & Wesson revolver by allowing precise tuning of trigger pulls. It is important to follow safety guidelines to ensure safe and effective use of this product. This guide provides essential safety instructions, general safety guidelines, specific precautions, installation instructions, and disposal information.

General Safety Guidelines

- Always read and understand all instructions before using the product.
- Ensure that the product is suitable for your specific model of Smith & Wesson revolver.
- Store the springs in a safe place, out of reach of children and pets.
- Inspect the springs for any signs of damage before use. Do not use damaged springs.
- Follow all local laws and regulations regarding firearms and firearm accessories.
- If you are uncertain about the installation or use of the springs, seek assistance from a qualified gunsmith.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) when handling firearms, including safety glasses and gloves.
- Always ensure the firearm is unloaded before installing or replacing the rebound springs.
- Do not attempt to modify the springs or use them in a manner not intended by the manufacturer.
- Be aware that changing the rebound spring can affect the trigger pull weight and may alter the firearm's performance.
- If you experience any malfunctions or safety concerns while using the product, discontinue use immediately and consult a professional.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather necessary tools, such as a screwdriver and a punch tool, if required.

2. Installation:

- Remove the side plate of the revolver according to the manufacturer's instructions.
- Carefully remove the existing rebound spring from the revolver.
- Select the desired weight of the reduced power rebound spring (available weights: 11 lb., 12 lb., 13 lb., 14 lb., and 15 lb.).
- Install the new rebound spring by following the reverse steps of removal, ensuring it is seated properly.

3. Testing:

- After installation, reassemble the firearm and conduct a function check to ensure proper operation.
- Test the trigger pull to confirm that it meets your preferences.

4. Maintenance:

- Regularly inspect the rebound springs for wear and replace them as necessary.
- Keep the springs clean and free from debris to ensure optimal performance.

Disposal Instructions

- Dispose of any damaged or unused springs in accordance with local regulations.
- Do not dispose of springs in regular household waste. Check for local recycling programs or hazardous waste disposal options.
- If unsure about disposal methods, consult local authorities for guidance.

Contact Information for Further Support

For any inquiries regarding the S&W Reduced Power Rebound Spring 13 lb. Model 2, Refill Pak, please consult the manufacturer's website or contact customer support for assistance. It is essential to have a reliable source for safety information and product support.

By following these safety instructions, you can ensure a safe and effective experience with your S&W Reduced Power Rebound Spring. Always prioritize safety and compliance with applicable laws and regulations when using firearm accessories. Thank you for your commitment to safety.
