# Safety Instruction Guide for Reduced Power Hammer Spring Kit #26520

## Introduction

Thank you for choosing the Reduced Power Hammer Spring Kit #26520 for your Colt 1911 & Commander. This kit is designed to enhance the performance of your firearm by allowing you to tune the hammer spring for a smoother trigger pull. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle firearms with care and respect.
- Ensure the firearm is unloaded before installation or maintenance.
- Use only the specified components included in this kit.
- Always wear appropriate safety gear, including eye protection, when working with firearms.
- Store the kit and all firearm components securely and out of reach of children.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure that you are familiar with the operation of your Colt 1911 or Commander before attempting to install the spring kit.
- Do not attempt to modify the hammer spring beyond the specifications provided in this kit.
- Be aware that changing the hammer spring weight may affect the firearm's reliability and safety. Test the firearm in a controlled environment after installation.
- Keep your workspace clean and organized to avoid losing small parts during installation.
- If you are unsure about any aspect of the installation or usage, consult a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather necessary tools: a punch, hammer, and any additional tools recommended in your firearm's manual.
- Ensure you are in a safe and well-lit workspace.

### 2. Installation Steps:

- **Unload the Firearm:**
  - Ensure the firearm is completely unloaded. Remove the magazine and check the chamber.
- **Remove the Slide:**
  - Follow the manufacturer's instructions to disassemble the firearm and remove the slide.
- **Access the Hammer Mechanism:**
  - Carefully remove the hammer assembly from the frame, following your firearm's manual.
- **Replace the Hammer Spring:**
  - Identify the existing hammer spring and remove it.
  - Select the desired weight spring from the kit (19 lb., 20 lb., or 21 lb.).
  - Install the new hammer spring in the same orientation as the original.
- **Reassemble the Firearm:**
  - Carefully reassemble the hammer mechanism and slide according to the manufacturer's instructions.
- **Test the Firearm:**

- After reassembly, conduct a function test to ensure proper operation. Always do this in a safe environment.

### **3. PostInstallation:**

- After installation, always verify that the firearm functions correctly with the new spring.
- Regularly inspect the hammer spring for wear and replace as necessary.

## **Disposal Instructions**

- Dispose of any used or damaged springs in accordance with local regulations.
- Do not dispose of springs in regular household waste. Instead, take them to a designated recycling or hazardous waste facility.

## **Contact Information for Further Support**

- For any safety inquiries or support regarding the Reduced Power Hammer Spring Kit #26520, please contact your local firearms dealer or a qualified gunsmith.

Thank you for your attention to these safety guidelines. Your safety and the safety of others depend on responsible firearm handling and maintenance.
