# **REDUCED POWER HAMMER SPRING KIT #26581 FOR S&W WOLFF KIT #26581 Safety Instruction Guide**

## **Introduction**

Thank you for choosing the Reduced Power Hammer Spring Kit #26581 for your Smith & Wesson semiauto pistol. This kit is designed to help you achieve a smoother double and/or singleaction pull while ensuring proper function of your firearm. To ensure your safety and the safety of others, please read this safety instruction guide thoroughly before using the product.

## **General Safety Guidelines**

- Ensure that you are familiar with the operation of your firearm and the specific requirements for safe handling.
- Always handle your firearm with care and treat it as if it is loaded.
- Keep the Reduced Power Hammer Spring Kit out of reach of children and unauthorized users.
- Regularly inspect your firearm and components for wear and damage.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls via the EU's Safety Gate platform.

## **Specific Safety Precautions for Use**

- Only use the Reduced Power Hammer Spring Kit with compatible Smith & Wesson models: 39/59, 439/459, 3904/3906, 5903/5904/5906, 645/745/4506, 4006/1006.
- Do not attempt to modify or alter the springs in any way.
- Ensure that the firearm is completely unloaded before installation of the hammer springs.
- Use appropriate tools and follow the manufacturer's instructions when installing the springs.
- Be cautious of potential pinching or snapping of springs during installation.

## **Instructions for Installation and Usage**

### **1. Preparation**

- Ensure your workspace is clean and free of distractions.
- Gather necessary tools: appropriate screwdrivers and any other tools specified in your firearm's manual.

### **2. Unloading the Firearm**

- Remove the magazine from the firearm.
- Open the action and visually inspect the chamber to confirm it is empty.

### **3. Installation of Hammer Springs**

- Remove the grip panels or any components necessary to access the hammer assembly.
- Carefully remove the existing hammer spring.
- Select the desired weight of the new hammer spring from the kit (16 lb., 17 lb., or 18 lb.).
- Install the new hammer spring according to the firearm's manual instructions, ensuring it is properly seated.
- Reassemble any components removed during installation.

#### 4. Testing the Firearm

- After installation, conduct a function check to ensure that the firearm operates correctly.
- If any issues arise, consult a qualified gunsmith or contact the manufacturer for assistance.

## Disposal Instructions

- Dispose of old hammer springs and any packaging materials in accordance with local regulations.
- Do not dispose of any components in a manner that may pose a hazard to the environment or public safety.

## Contact Information for Further Support

For any questions or concerns regarding the Reduced Power Hammer Spring Kit #26581, please refer to the manufacturer's website or contact their customer support team. Ensure you have the product details and any relevant information available when seeking assistance.

Thank you for prioritizing safety while using the Reduced Power Hammer Spring Kit. Your adherence to these guidelines helps ensure a safe and enjoyable experience with your firearm.
