

# TYPE C EXTRA POWER SPRINGS FOR HARDBALL & HEAVIER LOADS - WOLFF 22 LB. RECOIL SPRING

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

## Fine Tune For Light, Standard Or Heavy Loads

Like all Wolff springs, these for the 1911 Auto in .45, .38 Super or 9mm are the finest, most reliable, longest lasting ones available. The springs of choice for most of the nation's top builders. Except where noted, all recoil springs are supplied with an extra power firing pin spring that keeps the firing pin stop in place and prevents firing pin float ; an addition recommended by pistolsmith Bill Wilson. TYPE C - Extra Power For Hardball and Heavier Loads in Gov't./Gold Cup are for these guns in both .45 ACP and .38 Super. Allows more precise tuning of individual guns for better stripping, smoother cycling. Factory weight is 16 lb. Extra power firing pin spring included.

# **Safety Instruction Guide for TYPE C EXTRA POWER SPRINGS FOR HARDBALL & HEAVIER LOADS WOLFF 22 LB. RECOIL SPRING**

## **Introduction**

Thank you for choosing the TYPE C Extra Power Springs for Hardball & Heavier Loads. This product is designed for use with 1911 Auto firearms in .45 ACP, .38 Super, and 9mm calibers. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

## **General Safety Guidelines**

- Always treat all firearms and their components as if they are loaded.
- Ensure that the firearm is pointed in a safe direction at all times during installation and use.
- Keep the firearm secured and out of reach of children and unauthorized users.
- Regularly inspect all components for wear and damage before use.
- Follow all local, state, and national laws regarding the use and modification of firearms.

## **Specific Safety Precautions for Use**

- Use only the specified TYPE C Extra Power Springs designed for your firearm model.
- Do not exceed the recommended weight specifications (22 lbs) for your recoil spring.
- Be aware that increased spring tension may affect the cycling of the firearm.
- Use appropriate protective gear, such as safety glasses and hearing protection, when firing.
- Consult a qualified gunsmith if you are unsure about the installation process or compatibility with your firearm.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Ensure the firearm is unloaded and the magazine is removed.
- Clear the chamber and visually inspect to confirm it is safe.

### **2. Installation of Recoil Spring:**

- Remove the slide from the frame of the firearm according to the manufacturer's instructions.
- Carefully remove the existing recoil spring and guide rod.
- Install the new TYPE C Extra Power Recoil Spring by following these steps:
  - Place the new recoil spring onto the guide rod.
  - Ensure that the spring is seated properly and aligned with the guide rod.
  - Reassemble the slide onto the frame, making sure everything is properly aligned.

### **3. Testing:**

- After installation, conduct a function check to ensure the firearm cycles correctly.
- Fire a few test rounds in a safe and controlled environment to confirm proper operation.

## **Disposal Instructions**

- Dispose of old recoil springs and any other firearm components in accordance with local regulations.
- Do not discard in regular household waste; instead, consider recycling options where available.

## Contact Information for Further Support

For any questions or concerns regarding the TYPE C Extra Power Springs or to report unsafe products, please reach out to your local authorities or consult the EU's Safety Gate platform for updates on product recalls and safety information.

By following these safety instructions, you can ensure a safer experience with your TYPE C Extra Power Springs. Always prioritize safety and responsible firearm handling.
