

Deathgrip Shooting Tripod - BOG Deathgrip Carbon Fiber Shooting Tripod

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

The BOG™ DeathGrip Carbon Fiber Tripod is engineered to be the most stable precision tripod on the market. The carbon fiber legs reduce its overall weight making it highly portable without sacrificing stability. The strength of the carbon fiber legs decreases the amount of flex, making this precision tripod extremely accurate for even the beginning hunter. Its patented clamp securely locks down any weapon for a hands-free, rock-solid rest.

BOG Deathgrip Shooting Tripod Safety Instructions

Introduction

Thank you for choosing the BOG DeathGrip Carbon Fiber Shooting Tripod. This tripod is designed for stability and precision, making it an excellent choice for both novice and experienced hunters. To ensure your safety and the optimal performance of your tripod, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure the tripod is used only for its intended purpose, which is to provide a stable platform for firearms.
- Always inspect the tripod before use for any signs of damage or wear.
- Keep the tripod out of reach of children and vulnerable individuals when not in use.
- Use the tripod in a safe environment, away from hazards such as steep drops or unstable ground.
- Always follow local laws and regulations regarding firearm use and hunting.

Specific Safety Precautions for Use

- **Stability:** Ensure that the tripod is placed on a flat, stable surface before use. Avoid using it on uneven or slippery terrain.
- **Clamp Usage:** Always securely lock down your weapon in the patented clamp before taking your shot. Check that the clamp is functioning properly before use.
- **HandsFree Operation:** Never attempt to adjust the tripod or your weapon while it is in use. Always ensure that the weapon is safely secured before making any adjustments.
- **Weight Limit:** Do not exceed the maximum weight limit specified by the manufacturer for your tripod.
- **Weather Conditions:** Avoid using the tripod in extreme weather conditions that could affect its stability or performance.

Instructions for Installation and Usage

1. Setup:

- Unpack the tripod and ensure all parts are present.
- Extend the tripod legs to your desired height by loosening the leg locks, adjusting, and then tightening the locks securely.

2. Mounting Your Weapon:

- Open the patented clamp by loosening the clamp handle.
- Place your weapon securely in the clamp and tighten the handle to lock it in place.
- Ensure that the weapon is stable and secure before proceeding.

3. Adjusting the Tripod:

- Adjust the legs as needed to achieve the desired height and angle.
- Ensure all leg locks are tightened before use.

4. Using the Tripod:

- Position yourself behind the weapon and ensure that you have a clear line of sight.
- When ready to shoot, maintain a firm grip on the weapon and ensure your finger is off the trigger until you are ready to fire.

5. **PostUse:**

- Carefully remove your weapon from the clamp after use.
- Collapse the tripod and store it in a safe location.

Disposal Instructions

- Dispose of the tripod in accordance with local regulations regarding waste disposal.
- If the tripod is damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the tripod in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any safety inquiries or concerns regarding your BOG DeathGrip Carbon Fiber Shooting Tripod, please contact the manufacturer or your local distributor. Ensure you have your product details available for reference.

Conclusion

The BOG DeathGrip Carbon Fiber Shooting Tripod is designed to enhance your shooting experience while ensuring safety and stability. By following these guidelines and instructions, you can enjoy the benefits of your tripod while minimizing risks. Always prioritize safety for yourself and those around you during your shooting activities.
