Carbon fiber is well-suited to the tough tasks assigned to cleaning rods. It combines the best features of stainless steel and coated cleaning rods, then adds valuable properties of its own. Stainless steel rods can scratch or wear barrels if they're used carelessly – though they won't pick up potentially damaging small abrasive particles. "Coated" rods get part of the job done – they keep the stainless steel shaft from damaging your barrel's rifling, but the coating will pick up small abrasive particles, which means you're effectively running fine grit sandpaper through your bore. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods. Plus, Carbon Fiber rods can be bent to an extreme degree and return to their original straightness. During Operation Iraqi Freedom, US military armorers called on Tipton to provide cleaning rods that would clean service rifles in demanding conditions. It made sense to us: Carbon fiber is an ideal material for cleaning rods. We call these cleaning rods "deluxe" because they feature an ergonomically designed handle that spins on two sets of ball bearings – the result is a cleaning rod that smoothly follows the rifling both pushing and pulling, even while under pressure. The "shank-through" construction also allows the user to apply "reasonable" hammer blows to the end of the cleaning rod to get a tight patch through a bore. Available in four diameters and six lengths to fit most rifles, pistols, and shotguns. Rifle and handgun rods are threaded for 8-32 accessories, except 17 caliber and 20 caliber rods which are threaded 5-40. Shotgun rods are threaded 5/16"-27.

Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod

Safety Instructions

Introduction

Thank you for choosing the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. This product is designed to provide effective cleaning for firearms while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the cleaning rod safely and effectively.

General Safety Guidelines

- Always handle firearms with care and follow all safety protocols.
- Ensure the cleaning rod is suitable for the caliber of your firearm.
- Inspect the cleaning rod for any damage before each use.
- Store the cleaning rod in a safe, dry place out of reach of children.
- Do not use the cleaning rod for any purpose other than cleaning firearms.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**

- Risk of injury from improper use.
- Risk of damage to the firearm if used incorrectly.

- **Instructions for Avoiding Hazards:**

- Always ensure the firearm is unloaded before cleaning.
- Use the cleaning rod at a 90degree angle to the bore to prevent bending.
- Do not apply excessive force when pushing or pulling the cleaning rod through the bore.
- Avoid using the cleaning rod if it is bent or damaged.
- Do not use the cleaning rod in combination with abrasive materials.

- **Age or AudienceSpecific Warnings:**

- This product is not intended for use by children. Always supervise young users.

Instructions for Installation and Usage

- **Preparation:**

- Ensure the firearm is completely unloaded.
- Gather all necessary cleaning supplies, including patches and solvents.

- **Using the Cleaning Rod:**

- Attach the appropriate cleaning accessory to the end of the cleaning rod.
- Insert the cleaning rod into the bore of the firearm gently.
- Push the cleaning rod through the bore slowly, ensuring it follows the rifling.
- Pull the cleaning rod back out gently. Repeat as necessary.
- Use the ergonomically designed handle to maintain control and comfort.
- Apply reasonable hammer blows to the end of the cleaning rod if needed to pass a tight patch.

- **After Use:**

- Clean the cleaning rod with a soft cloth to remove any residue.
- Store the cleaning rod in its protective case or a designated storage area.

Disposal Instructions

- Dispose of the cleaning rod in accordance with local regulations.
- Do not dispose of the cleaning rod in general waste if it is damaged or broken.
- Consider recycling the carbon fiber material where facilities are available.

Contact Information for Further Support
