Carbon fiber is well-suited to the tough tasks assigned to cleaning rods. It combines the best features of stainless steel and coated cleaning rods, then adds valuable properties of its own. Stainless steel rods can scratch or wear barrels if they're used carelessly – though they won't pick up potentially damaging small abrasive particles. "Coated" rods get part of the job done – they keep the stainless steel shaft from damaging your barrel's rifling, but the coating will pick up small abrasive particles, which means you're effectively running fine grit sandpaper through your bore. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods. Plus, Carbon Fiber rods can be bent to an extreme degree and return to their original straightness. During Operation Iraqi Freedom, US military armorers called on Tipton to provide cleaning rods that would clean service rifles in demanding conditions. It made sense to us: Carbon fiber is an ideal material for cleaning rods. We call these cleaning rods "deluxe" because they feature an ergonomically designed handle that spins on two sets of ball bearings – the result is a cleaning rod that smoothly follows the rifling both pushing and pulling, even while under pressure. The "shank-through" construction also allows the user to apply "reasonable" hammer blows to the end of the cleaning rod to get a tight patch through a bore. Available in four diameters and six lengths to fit most rifles, pistols, and shotguns. Rifle and handgun rods are threaded for 8-32 accessories, except 17 caliber and 20 caliber rods which are threaded 5-40. Shotgun rods are threaded 5/16"-27.

## Safety Instructions

### Introduction

Thank you for choosing the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. This product is designed to provide effective and safe cleaning for firearms. To ensure your safety and the longevity of your cleaning rod, please read and follow these safety instructions carefully.

### General Safety Guidelines

- Always handle firearms in a safe manner. Ensure that firearms are unloaded and pointed in a safe direction before cleaning.
- Keep the cleaning rod and all cleaning accessories out of reach of children and vulnerable individuals.
- Inspect the cleaning rod for any signs of damage before use. Do not use if damaged.
- Follow all manufacturer instructions for cleaning and maintenance.
- Be aware of your surroundings while cleaning your firearm, ensuring that no unauthorized persons are nearby.

### Specific Safety Precautions for Use

- Use the cleaning rod only for its intended purpose: cleaning firearms.
- Avoid excessive force when using the cleaning rod. Apply reasonable pressure to prevent damage to the bore or cleaning rod.
- Do not use the cleaning rod if it has become bent or deformed. This may lead to ineffective cleaning and potential damage.
- Be cautious of small abrasive particles that may be present on the cleaning rod. Clean the rod regularly to avoid embedding these particles into the bore.
- Ensure that the cleaning rod is properly threaded with the appropriate accessories before use.

### Instructions for Installation and Usage

#### 1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary cleaning materials, including patches, solvent, and brushes.

#### 2. Attaching Accessories:

- Select the appropriate accessory for your cleaning task.
- Thread the accessory onto the cleaning rod. Ensure it is securely fastened.

#### 3. Cleaning Procedure:

- Insert the cleaning rod into the bore of the firearm gently, ensuring it is aligned straight.
- Push and pull the cleaning rod smoothly through the bore, allowing it to follow the rifling.
- If resistance is felt, do not force the rod. Instead, check for obstructions or debris in the bore.
- After cleaning, remove the rod and accessory from the bore.

#### 4. PostCleaning:

- Inspect the cleaning rod for any signs of wear or damage after use.
- Clean the rod with a soft cloth to remove any solvent or debris. Store it in a safe and dry place.

## **Disposal Instructions**

- Dispose of any used cleaning accessories, such as patches and brushes, in accordance with local regulations.
- Do not dispose of the cleaning rod in regular household waste if it is damaged. Check with local waste disposal facilities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding the safety or usage of this product, please reach out to the appropriate EU-based contact point. Ensure that you have the product details on hand for efficient assistance.

By following these guidelines, you can ensure a safe and effective cleaning experience with your Tipton Deluxe 1-Piece Carbon Fiber Cleaning Rod. Thank you for prioritizing safety and proper firearm maintenance.
