Carbon fiber is well-suited to the tough tasks assigned to cleaning rods. It combines the best features of stainless steel and coated cleaning rods, then adds valuable properties of its own. Stainless steel rods can scratch or wear barrels if they're used carelessly – though they won't pick up potentially damaging small abrasive particles. "Coated" rods get part of the job done – they keep the stainless steel shaft from damaging your barrel's rifling, but the coating will pick up small abrasive particles, which means you're effectively running fine grit sandpaper through your bore. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods. Plus, Carbon Fiber rods can be bent to an extreme degree and return to their original straightness. During Operation Iraqi Freedom, US military armorers called on Tipton to provide cleaning rods that would clean service rifles in demanding conditions. It made sense to us: Carbon fiber is an ideal material for cleaning rods. We call these cleaning rods "deluxe" because they feature an ergonomically designed handle that spins on two sets of ball bearings – the result is a cleaning rod that smoothly follows the rifling both pushing and pulling, even while under pressure. The "shank-through" construction also allows the user to apply "reasonable" hammer blows to the end of the cleaning rod to get a tight patch through a bore. Available in four diameters and six lengths to fit most rifles, pistols, and shotguns. Rifle and handgun rods are threaded for 8-32 accessories, except 17 caliber and 20 caliber rods which are threaded 5-40. Shotgun rods are threaded 5/16"-27.

Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod

Safety Instructions

Introduction

Thank you for choosing the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. This guide provides essential safety instructions and usage information to ensure a safe and effective cleaning experience for your firearms. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure the cleaning rod is used only for its intended purpose of cleaning firearms.
- Always handle firearms with care and ensure they are unloaded before cleaning.
- Keep the cleaning rod and all cleaning supplies out of reach of children and vulnerable individuals.
- Regularly inspect the cleaning rod for any signs of damage or wear before each use.
- Follow all local laws and regulations regarding firearm cleaning and maintenance.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when cleaning firearms.
- Do not apply excessive force when using the cleaning rod, as this may damage the firearm or the rod itself.
- Avoid using the cleaning rod on firearms that are not compatible with its dimensions.
- Ensure the cleaning rod is properly threaded with the correct accessories before use.
- Do not attempt to clean a firearm that is still loaded.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your firearm is completely unloaded.
- Gather all necessary cleaning supplies, including patches, cleaning solvent, and the Tipton cleaning rod.

2. Threading the Cleaning Rod:

- Select the appropriate accessory for your cleaning needs.
- Thread the accessory onto the end of the cleaning rod, ensuring it is securely fastened.

3. Inserting the Cleaning Rod:

- Align the cleaning rod with the bore of the firearm.
- Gently insert the rod into the bore, ensuring it follows the rifling smoothly.

4. Cleaning Process:

- Apply cleaning solvent to a patch and attach it to the cleaning rod.
- Push the rod through the bore from the chamber to the muzzle, then pull it back out.
- Repeat as necessary, using clean patches until the bore is clean.

5. Finishing Up:

- After cleaning, remove the cleaning rod and accessories from the firearm.
- Wipe down the cleaning rod with a clean cloth to remove any residue.

- Store the cleaning rod in a safe and dry place.

Disposal Instructions

- Dispose of any used cleaning patches and solvents according to local regulations.
- If the cleaning rod becomes damaged beyond use, please recycle it according to your local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or further support regarding the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod, please refer to the product packaging for contact details.

Thank you for prioritizing safety while maintaining your firearms. Enjoy your cleaning experience with the Tipton Deluxe Cleaning Rod!
