

Ultra Jag - Ultra Jag 270 / 7mm Caliber

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Take a modern bore solvent and squirt it on a brass cleaning jag. The liquid will turn blue as it drips off the jag – it is working so fast, it starts to dissolve your cleaning jag in front of your eyes! If you are following conventional wisdom “clean until you get a clear patch” you might be in for a long night. Tipton®’s Ultra Jag™ features a patent-pending technology that covers the surface of a traditional push-type jag with solvent-proof material, keeping aggressive modern bore solvents from creating false blue stains that normally indicate copper fouling. When you use Ultra Jags, you will get better, faster cleaning results because you will know you are getting blue stains from copper fouling and not from the surface of your jag.

Tipton Ultra Jag Safety Instructions

Introduction

Thank you for choosing the Tipton Ultra Jag for your cleaning needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before use to understand the potential hazards and how to avoid them.

General Safety Guidelines

- Ensure product safety by following all instructions provided in this manual.
- Always use the product in accordance with its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Check the EU Safety Gate platform for any recall updates related to this product.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as gloves and goggles, when using cleaning solvents.
- Use the Ultra Jag in a wellventilated area to avoid inhaling fumes from cleaning solvents.
- Do not mix different cleaning solvents, as this may create harmful reactions.
- Inspect the Ultra Jag regularly for signs of wear or damage. Do not use if damaged.
- Avoid direct contact with the cleaning jag when it is in use, as it may become hot during cleaning.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary cleaning supplies, including modern bore solvent and the Tipton Ultra Jag.
- Ensure that the firearm is unloaded and in a safe condition before beginning the cleaning process.

2. Using the Ultra Jag

- Take a modern bore solvent and apply it to the brass cleaning jag.
- Observe the liquid as it drips off the jag. If it turns blue, this indicates the solvent is working effectively.
- Avoid the conventional practice of cleaning until you see a clear patch, as this may lead to prolonged cleaning times.

3. PostUse Care

- After use, clean the Ultra Jag with a suitable solvent to remove any residue.
- Store the Ultra Jag in a dry place, away from direct sunlight and extreme temperatures.

Disposal Instructions

- Dispose of any used cleaning solvents and materials in accordance with local regulations.
- Do not dispose of the Ultra Jag in regular household waste. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the Tipton Ultra Jag, please reach out to your local retailer or manufacturer. Always ensure you have the product's identification information ready for reference.

By following these safety instructions, you can ensure a safe and effective cleaning experience with the Tipton Ultra Jag. Thank you for your attention to these important guidelines.
