Tipton Pipettes Safety Instruction Guide

Introduction

Thank you for choosing Tipton Pipettes. This guide provides essential safety instructions to ensure the safe use and handling of our product. Tipton Pipettes are designed for measuring and transferring liquid products, making them ideal for various applications. Please read this guide carefully to understand how to use the pipettes safely and effectively.

General Safety Guidelines

- Ensure that the pipettes are used only for their intended purpose: measuring and transferring liquids.
- Keep pipettes out of reach of children and pets to prevent accidental ingestion or misuse.
- Inspect pipettes for any visible damage before use. Do not use damaged pipettes.
- Avoid using the pipettes with hazardous or corrosive substances unless they are specifically designed for such use.
- Always work in a wellventilated area when handling chemicals or solvents.
- If any liquid comes into contact with skin or eyes, wash the affected area immediately with plenty of water and seek medical attention if necessary.

Specific Safety Precautions for Use

- Use pipettes only with liquids that are compatible with plastic materials.
- Do not attempt to reuse disposable pipettes. Dispose of them after a single use.
- Avoid drawing liquid into the pipette beyond the designated measurement markings to prevent overflow.
- Use gloves when handling hazardous liquids to protect your skin.
- Ensure that the work surface is clean and free from clutter to prevent spills and accidents.
- If using the pipettes for cold bluing solutions or solvents, follow the manufacturer's instructions for those specific products.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the pipette and the liquid to be transferred.
- Ensure that your work area is clean and wellorganized.

2. Using the Pipette:

- Hold the pipette by the top to avoid contamination.
- Insert the tip of the pipette into the liquid to be transferred.
- Use gentle suction to draw the liquid into the pipette, ensuring you do not exceed the maximum fill line.
- Remove the pipette from the liquid and carefully dispense the liquid where needed.

3. PostUse:

- Dispose of the pipette immediately after use in accordance with local waste disposal regulations.
- Clean your work area to remove any spills or residues.

Disposal Instructions

- Dispose of used pipettes in accordance with local regulations for plastic waste.
- Do not attempt to recycle used pipettes, as they are intended for single use only.

- If there are any hazardous substances on the pipette, follow appropriate hazardous waste disposal guidelines.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the contact information provided on the packaging or product documentation. Always ensure you have the latest safety information and updates regarding the product.

By following these safety instructions, you can ensure a safe and effective experience with Tipton Pipettes. Thank you for your attention to safety and proper usage.
