

# Roll Pin Starter Set

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Punches](#)

The Wheeler Engineering® Roll Pin Starter Punches are machined from hardened steel to prevent bending or breaking while driving any size roll pin. The punches are designed with a hemispherical tip to provide proper alignment of the roll pin to prevent damage to the firearm and the roll pin. The 9 piece set includes: 5/16", 1/4", 7/32", 3/16", 5/32", 1/8", 3/32", 5/64", 1/16" punches in a nylon pouch.

# Wheeler Roll Pin Starter Set Safety Instruction Guide

## Introduction

Thank you for choosing the Wheeler Engineering® Roll Pin Starter Set. This guide provides essential safety instructions and usage information to ensure your safety while using this product. Please read this manual thoroughly before use to understand the necessary precautions and instructions.

## General Safety Guidelines

- Always inspect the roll pin starter punches for any signs of damage before use. Do not use damaged tools.
- Ensure that you are using the correct size punch for the roll pin to prevent bending or breaking.
- Keep the workspace clean and organized to avoid accidents.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves to protect against flying debris.
- Keep tools out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure that no one is in the line of work when using the punches.

## Specific Safety Precautions for Use

- Use the roll pin starter punches only for their intended purpose – driving roll pins.
- Do not use excessive force when driving the roll pins; apply steady pressure instead.
- Ensure the firearm is unloaded and safe before using the punches.
- Maintain a firm grip on the punch and the roll pin to prevent slippage during use.
- Avoid distractions while using the punches to maintain focus.
- If you are unsure about the usage, seek guidance from a knowledgeable individual or refer to additional resources.

## Instructions for Installation and Usage

### 1. Select the Correct Punch:

- Choose the appropriate punch size from the set for the roll pin you are working with.

### 2. Prepare the Workspace:

- Clear the area of any unnecessary items.
- Ensure adequate lighting for visibility.

### 3. Position the Roll Pin:

- Align the roll pin with the hole where it will be installed.
- Hold the roll pin in place with one hand.

### 4. Align the Punch:

- Place the hemispherical tip of the punch over the roll pin.
- Ensure that the punch is perpendicular to the surface to avoid misalignment.

### 5. Drive the Roll Pin:

- With a steady and controlled motion, strike the end of the punch with a hammer.

- Continue to drive the roll pin until it is securely in place.

#### **6. Check Alignment:**

- After installation, doublecheck that the roll pin is properly aligned and seated.

#### **7. Clean Up:**

- After use, clean the punches and store them in the nylon pouch to keep them organized and protected.

## **Disposal Instructions**

- Dispose of any damaged or wornout punches according to local regulations.
- Do not dispose of the product in regular household waste. Check with local waste management for appropriate disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and usage of the Wheeler Roll Pin Starter Set, please contact the manufacturer or refer to the product packaging for further assistance.

By following these safety instructions, you can ensure a safe and effective experience while using the Wheeler Roll Pin Starter Set. Thank you for your attention to safety!
