General Safety Guidelines

- Always inspect the axe before use. Check for any visible damage or defects.
- Use the axe only for its intended purpose. Do not use it for prying, hammering, or other unintended tasks.
- Keep the axe out of reach of children and vulnerable individuals.
- Store the axe in a safe location, ideally in a protective sheath, when not in use.
- Be aware of your surroundings when using the axe. Ensure that no one is in your immediate vicinity.
- Wear appropriate personal protective equipment (PPE), including gloves and safety goggles, to protect against potential injuries.
- Follow local laws and regulations regarding the use of axes and similar tools.

Specific Safety Precautions for Use

- **Grip:** Always use the nonslip HGRIP™ handle to maintain a secure grip while chopping.
- **Stance:** Stand with your feet shoulderwidth apart for stability. Ensure your body is positioned away from the swing path of the axe.
- **Chopping Technique:** Use smooth, controlled swings. Avoid excessive force that could lead to loss of control.
- **Target Area:** Ensure the area you are chopping is clear of obstacles, debris, or other individuals.
- **Fatigue:** Take regular breaks to avoid fatigue, which can increase the risk of accidents.
- **Weather Conditions:** Avoid using the axe in wet or slippery conditions that could affect your grip and control.

Instructions for Installation and Usage

1. Preparation:

- Choose a stable work surface for chopping. A sturdy log or chopping block is ideal.
- Ensure the axe is clean and free of debris before use.

2. Using the Axe:

- Hold the axe firmly with both hands, ensuring your dominant hand is on the grip and your other hand is positioned near the axe head.
- Aim for the center of the target wood to maximize efficiency and minimize the risk of missing.
- Swing the axe down with controlled force. Do not swing too hard, as this can lead to loss of control.

3. PostUse Care:

- Clean the axe after each use to prevent rust and maintain its condition.
- Store the axe in its protective sheath and keep it in a secure location.
