

# AR Pic Rail Brass Catcher - AR-15 Brass Catcher

## [Shooting Accessories](#)

Tired of picking up .223 brass from your AR? The AR-15 Brass Catcher attaches to the forearm of any AR with hook and loop webbing and captures the ejected brass. It prevents brass from being scattered around your shooting area, and works great in preventing hot brass from landing on shooter or other people next to the shooter. A wire frame holds fabric in correct shape and allows brass to enter bag without disruption to bolt function or interrupting cycling. The Caldwell AR-15 Brass Catcher captures and holds approximately 30 rounds, and has a convenient zipper at bottom of mesh bag that makes emptying simple.

# Caldwell AR Pic Rail Brass Catcher Safety Instructions

## Introduction

Thank you for choosing the Caldwell AR Pic Rail Brass Catcher for your AR15. This product is designed to enhance your shooting experience by capturing ejected brass, preventing it from scattering and ensuring a safer environment for you and those around you. Please read this safety instruction guide carefully to ensure proper use and maintenance of the product.

## General Safety Guidelines

- Ensure the Brass Catcher is compatible with your AR15 model before installation.
- Always handle your firearm responsibly and in accordance with local laws and regulations.
- Inspect the Brass Catcher for any damage before use. Do not use if damaged.
- Keep the Brass Catcher away from children and unauthorized users.
- Report any unsafe conditions or product malfunctions to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection while shooting.
- Ensure the area around you is clear of people and obstructions before shooting.
- Do not attempt to catch brass while the firearm is in use.
- Avoid reaching for the Brass Catcher during active shooting.
- Make sure the Brass Catcher is securely attached to prevent it from detaching during use.
- Do not exceed the recommended capacity of approximately 30 rounds to prevent overloading.

## Instructions for Installation and Usage

### Installation

#### 1. Attach the Brass Catcher:

- Locate the hook and loop webbing on the Brass Catcher.
- Align the webbing with the forearm of your AR15.
- Press firmly to secure the Brass Catcher in place.

#### 2. Check Stability:

- Ensure the Brass Catcher is firmly attached and does not move when pulled gently.

### Usage

#### 1. Shooting:

- Fire your AR15 as you normally would.
- The Brass Catcher will capture ejected brass, preventing it from scattering.

#### 2. Emptying the Brass Catcher:

- Once you have finished shooting, unzip the bottom of the mesh bag.
- Carefully pour the captured brass into a container for storage or disposal.

### **3. Cleaning and Maintenance:**

- Regularly check the Brass Catcher for debris or damage.
- Clean the mesh bag as needed to maintain optimal performance.

## **Disposal Instructions**

- Dispose of the Brass Catcher in accordance with local waste management regulations.
- Recycle materials where possible to minimize environmental impact.
- Ensure that all captured brass is disposed of properly, as per local guidelines.

## **Contact Information for Further Support**

For any questions or concerns regarding the Caldwell AR Pic Rail Brass Catcher, please refer to the product packaging for information on obtaining support or consult your local retailer for assistance.

By following these safety instructions, you can enjoy a safer shooting experience with your Caldwell AR Pic Rail Brass Catcher. Thank you for prioritizing safety and responsible usage.
