

AR Pic Rail Brass Catcher

[Shooting Accessories](#)

The Caldwell® AR-15 Pic Rail Brass Catcher mounts to the Pic Rail of any AR with its quick detach anodized aluminum clamp and captures the ejected brass during firing. The clamp and wire frame are fully adjustable to work with a wide variety of rail/optic configurations and allow brass to enter bag without any disruption to bolt function or cycling. The quick detent locking attachment feature allows for quick installation and removal of the brass catcher; which allows for quick checking or clearing of the rifle chamber. The large 100 round capacity (.223) prevents brass from being scattered around your shooting area and works great in preventing hot brass from landing on the shooter or spotter. Convenient zipper at bottom of mesh bag makes emptying simple.

Safety Instruction Guide for Caldwell AR Pic Rail Brass Catcher

Introduction

Thank you for choosing the Caldwell AR15 Pic Rail Brass Catcher. This product is designed to enhance your shooting experience by capturing ejected brass and preventing it from scattering. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Inspect the brass catcher before each use for any signs of damage or wear.
- Ensure that the brass catcher is securely mounted to the Pic Rail before firing.
- Use only with compatible AR15 models as specified by the manufacturer.
- Keep the area around you clear of obstructions and other individuals while shooting.
- Always wear appropriate eye and ear protection when shooting.
- Store the brass catcher in a safe location when not in use, away from children and pets.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- The brass catcher is designed for use with .223 caliber ammunition. Do not use with other calibers unless specified.
- Avoid overfilling the brass catcher. It has a capacity of 100 rounds; empty it regularly to prevent jams.
- Be cautious of hot brass. The brass catcher is designed to prevent brass from landing on you, but always be aware of your surroundings.
- Do not modify the brass catcher in any way. This could lead to unsafe conditions and void the warranty.
- Ensure that the bolt function and cycling of your rifle are not obstructed by the brass catcher.

Instructions for Installation and Usage

1. Installation:

- Locate the Pic Rail on your AR15.
- Attach the quick detach anodized aluminum clamp of the brass catcher to the Pic Rail.
- Adjust the clamp and wire frame as necessary to ensure a secure fit.
- Ensure that the brass catcher is positioned to allow brass to enter the bag without obstruction.

2. Usage:

- Before firing, doublecheck that the brass catcher is securely attached and properly positioned.
- Fire your rifle as normal. The brass catcher will capture the ejected brass.
- After shooting, check the brass catcher for any jams or obstructions.
- Use the convenient zipper at the bottom of the mesh bag to empty the brass catcher when full.

Disposal Instructions

- Dispose of any damaged or nonfunctional brass catcher in accordance with local regulations.
- Recycle the aluminum components where possible.
- Do not dispose of the brass catcher in regular household waste if it is still functional; consider donating or repurposing.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's official website or customer support channels. Ensure that you have your product details ready for assistance.

By following these guidelines, you can ensure safe and effective use of the Caldwell AR15 Pic Rail Brass Catcher. Enjoy your shooting experience!
