

Spitfire AR 1x Prism Scope DRT reticle

[Optics & Mounting](#) > [Electronic Sights](#) > [Red Dot Sights](#)

Built from the ground up specifically to maximize the quick-handling performance of AR-platform rifles. Vortex's new Spitfire AR 1x prism scope delivers incredible optical quality and ultra-fast functionality in a lightweight, streamlined package. The generous, parallax-free, sight picture and forgiving eyepiece gets shooters on target effortlessly - even in high-stress scenarios. Rear facing power and illumination intensity controls are easy to access, simple to operate, stay visually present from the shooting position and are protected from incidental contact.

Ten intensity levels let you adjust to perfectly match ambient light conditions. The DRT (Dual Ring Tactical) reticle is etched directly on the prism to assure consistent point-of-aim at all times - regardless of whether or not the illumination is engaged. An additional yardage-marked turret cap (ballistic-matched to the 5.56 cartridge) allows the shooter to swap out the factory-installed cap for rapid dialing of known-distance shots out to 700 yards. At 11.2 ounces, the lightweight Spitfire AR excels in close to medium range shooting applications where speed is of the essence, making it the ideal choice for AR shooters who needs to get on target fast.

Fully Multi-Coated Multiple anti-reflective coatings on all air-to-glass surfaces increase light transmission.

Prism-Based Design Delivers sharp optics and allows for unique reticle designs that are visible with or without illumination.

Single-Piece Chassis Compact and lightweight.

Nitrogen gas purging with o-rings-seals delivers fogproof, waterproof performance.

Waterproof O-ring seals prevent moisture, dust and debris from penetrating for reliable performance in all environments.

Shockproof Rugged construction withstands recoil and impact.

Hard Anodized Finish Highly durable low-glare matte finish.

Operating Temperature Rated from -22 degrees to +122 degrees Fahrenheit.

Mount Height Comes mounted at a lower 1/3 co-witness height of 40.4mm from the optic center to base surface.

Adjustable Brightness Provides five levels of brightness intensity with red and green illumination settings.

Red/Green Reticle Option allows shooters to choose dot color.

Battery Life Typical battery life is 250 hours at maximum brightness and 3,000 hours at minimum brightness setting.

Runs off a single common AAA battery

Attributes

- Name: [VORTEX OPTICS Spitfire AR 1x Prism Scope DRT reticle](#)
- Manufacturer: [VORTEX OPTICS](#)
- Product no.: EU2003297
- Mfr. No.: SPR200
- Finish: Black
- Max Magnification: 1x
- Delivery weight: 408kg
- Shipping height: 102mm
- Shipping width: 64mm

- Shipping length: 171mm
- UPC: 875874001602

Vortex Optics Spitfire AR 1x Prism Scope Safety Instruction Guide

Introduction

Thank you for choosing the Vortex Optics Spitfire AR 1x Prism Scope. This guide provides essential safety instructions to ensure the safe and effective use of your new optic. Please read and understand these guidelines before using the product.

General Safety Guidelines

- Ensure that the scope is used only for its intended purpose, which is for aiming and shooting with ARplatform rifles.
- Always handle the scope and your firearm with care to prevent accidents.
- Store the scope in a safe place, away from children and unauthorized users.
- Regularly check the scope for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding firearm use and optics.

Specific Safety Precautions for Use

- **Eye Protection:** Always wear appropriate eye protection when using firearms equipped with the scope.
- **Check Compatibility:** Ensure that the scope is compatible with your specific firearm model before installation.
- **Avoid Obstruction:** Ensure the scope's sight picture is clear and unobstructed before use.
- **Lighting Conditions:** Adjust the brightness settings according to ambient light conditions to avoid eye strain.
- **Illumination Control:** Familiarize yourself with the illumination controls before using the scope in the field.
- **Proper Mounting:** Ensure the scope is securely mounted to prevent it from moving during use.

Instructions for Installation and Usage

1. Installation:

- Select an appropriate mounting location on your firearm.
- Ensure the mounting surface is clean and free of debris.
- Secure the scope using the provided mounting hardware, following the manufacturer's instructions.
- Adjust the mount height to the lower 1/3 cowitness height of 40.4mm from the optic center to the base surface.

2. Using the Scope:

- Turn on the scope using the rearfacing power button.
- Adjust the illumination intensity using the control dial to suit your lighting conditions.
- Look through the scope and ensure the reticle is visible and properly aligned with your target.
- Use the yardagemarked turret cap for dialing knowndistance shots out to 700 yards.

3. Maintenance:

- Regularly clean the lens with a soft, lintfree cloth.
- Store the scope in a cool, dry place when not in use.
- Check the battery life and replace the AAA battery as needed.

Disposal Instructions

- Dispose of the scope and any electronic components in accordance with local electronic waste disposal regulations.
- Do not dispose of batteries in household waste. Follow local regulations for battery recycling.

Contact Information for Further Support

For any inquiries regarding safety or product support, please reach out to the designated contact point provided with your product packaging.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Vortex Optics Spitfire AR 1x Prism Scope. Thank you for your attention to safety!
