

Kaibab 18x56 HD

[Optics & Mounting](#) > [Binoculars & Accessories](#) > [Binoculars](#)

Kaibab HD 18x56 binoculars from Vortex combines powerful magnification with stunning resolution, making them state-of-the-art glass for locating targets at extreme distances. Big 56mm objective lenses gather plenty of light for effective glassing even in low light, while and the HD optical system provides long distance clarity to separate game from the surrounding landscape. The Kaibab is ideal for hunters operating at long ranges on the Western plains.

Vortex's advanced ArmorTek exterior multi-coating protect lenses from scratches, dirt, and fingerprints while enhancing image quality. Ultra-comfortable twist up eyecups and a slow, fine adjustment focus wheel ensure smooth, precise image acquisition. The lightweight, chassis is O-ring sealed and Argon-purged for waterproof and fogproof performance in all weather. Roof prism design is far more compact & robust than traditional Porro prism binos.

Kaibab HD 18x56 binos get their long reach from Vortex's high-density, extra-low dispersion glass that produces remarkably crisp, detailed resolution and color fidelity, resulting in breathtaking high-definition images. XR Plus multi-coatings deliver the highest level of light transmission, with multiple anti-reflective coatings on all air-to-glass surfaces for maximum brightness. A "Phase Correction" coating on the roof prism further enhances resolution and contrast. All coatings are applied using Vortex's cutting-edge Plasma Tech application process for unparalleled durability. Since 18x binoculars can be a little difficult to hold steady for long periods of time, each Kaibab HD 18x 56 comes with Vortex's Uni-Daptor that enables easy connect to a tripod for rock steady viewing at long distances.

Phase-corrected full-size roof prisms

Non-slip rubber armor on exterior enhances durability

Impressive 10' minimum focus distance

VORTEX OPTICS Kaibab 18x56 HD Safety Instructions

Introduction

Thank you for choosing the VORTEX OPTICS Kaibab 18x56 HD binoculars. These highperformance binoculars are designed to enhance your outdoor experience, whether you're observing wildlife or enjoying nature. To ensure your safety and the optimal performance of your binoculars, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the binoculars as intended to avoid potential hazards.
- Inspect the binoculars regularly for any signs of damage or wear.
- Keep binoculars out of reach of children to prevent accidents or misuse.
- Do not use the binoculars in conditions that may compromise your safety, such as extreme weather or unstable surfaces.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- When using the binoculars, hold them securely to avoid dropping.
- Avoid looking directly at the sun through the binoculars as it can cause permanent eye damage.
- Use the twistup eyecups correctly to ensure comfort and prevent eye strain.
- If using a tripod, ensure it is stable and securely connected to the binoculars.
- Clean the lenses carefully with a microfiber cloth to avoid scratches.

Instructions for Installation and Usage

Using the Binoculars

1. **Adjust the Eyecups:** Twist up the eyecups for comfortable viewing, especially if you wear glasses.
2. **Focus Adjustment:** Use the focus wheel to adjust the clarity of the image. Start by focusing on a distant object.
3. **Field of View:** The binoculars provide a field of view of 194 feet at 1,000 yards. Use this to locate your target.
4. **Tripod Connection:**
 - Attach the UniDaptor to the binoculars.
 - Securely mount the binoculars onto the tripod for steady viewing.
5. **Storage:** When not in use, store the binoculars in a protective case to prevent damage.

Cleaning and Maintenance

- Use a soft, dry cloth to wipe the exterior of the binoculars.
- For lens cleaning, use a microfiber cloth. Avoid using harsh chemicals or abrasive materials.
- Store the binoculars in a cool, dry place to prevent moisture damage.

Disposal Instructions

- Dispose of the binoculars in accordance with local regulations.
- If the binoculars are damaged beyond repair, recycle components where possible.
- Do not dispose of electronic components in regular waste.

Contact Information for Further Support

For any inquiries regarding the safety and maintenance of your VORTEX OPTICS Kaibab 18x56 HD binoculars, please refer to the contact point provided by the manufacturer.

Thank you for your attention to these safety instructions. Enjoy your VORTEX OPTICS Kaibab 18x56 HD binoculars responsibly!
