

Recon 15x50 R/T Tactical Scope

[Optics & Mounting](#) > [Binoculars & Accessories](#) > [Binoculars](#)

Developed especially for field surveillance and estimating range, the Vortex Recon R/T 15x50 Tactical Monocular is a unique, advanced tactical piece of equipment that is unlike any other in the field. The powerful magnification allows for detailed observation of distant subjects, while the large 50mm objective lens gathers abundant light.

Extra-low dispersion XD lenses. Fully multi-coated with Vortex XR anti-reflective coating and phase-corrected prism glass generate a vivid, detailed image, even in low light. Highly accurate range estimates are possible with the R/T ranging reticle, which employs MRAD-based subtensions and a secondary quick-ranging system based on a human silhouette.

While the tactical crowd will appreciate the full featured Vortex Recon R/T 15x50 Tactical Monocular, hunters will also benefit from this lightweight, fast handling spotting scope.

O-ring sealed and Argon-purged for waterproof and fogproof performance
ArmorTek protects exterior lenses from scratches, oil, and dirt
Versatile attachment clip secures

VORTEX OPTICS Recon 15x50 R/T Tactical Scope

Safety Instruction Guide

Introduction

Thank you for choosing the VORTEX OPTICS Recon 15x50 R/T Tactical Scope. This guide provides essential safety information and instructions for the safe use, installation, and disposal of your tactical scope. Please read this guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the scope with care to prevent damage.
- Keep the scope out of reach of children and vulnerable individuals.
- Regularly inspect the scope for any signs of damage or wear before use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

Specific Safety Precautions for Use

- Do not use the scope in conditions that exceed its specifications (e.g., extreme temperatures, heavy rain).
- Avoid looking directly at the sun through the scope, as this can cause permanent eye damage.
- Use the scope in a stable position to prevent accidents and ensure accurate observations.
- When adjusting the scope, do so gently to avoid damaging the internal mechanisms.
- Ensure that the attachment clip is securely fastened before use to prevent accidental drops.
- If the scope becomes wet, dry it immediately with a soft cloth to prevent moisture damage.

Instructions for Installation and Usage

1. Installation

- Choose a stable and secure mounting location for the scope.
- Ensure that the attachment clip is properly aligned before securing it to the mounting surface.
- Tighten the attachment clip firmly but avoid overtightening, which may cause damage.

2. Usage

- Adjust the eyepiece for comfortable viewing by rotating it until the image is clear.
- Use the R/T ranging reticle to estimate distances accurately based on the MRADbased subtensions.
- For lowlight conditions, ensure that the antireflective coating is clean for optimal performance.
- Regularly check the focus and make adjustments as necessary for clear observation.

Disposal Instructions

- Dispose of the product in accordance with local regulations and guidelines for electronic waste.
- Remove batteries if applicable and dispose of them separately according to local battery disposal regulations.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For further assistance, please refer to the manufacturer's website or customer service resources. Ensure that you have the product model and any relevant information ready when seeking support.

Thank you for following these safety guidelines. Enjoy your VORTEX OPTICS Recon 15x50 R/T Tactical Scope responsibly!
