

ICE - IcePlate Carrier Exoskeleton - Black

[Home](#)

IcePlate EXO (ICE) is a new type of ultra-minimalist, ventilated, multi-role, scalable plate carrier.

IcePlate EXO (ICE) anchors our IceAge Ecosystem by combining all of our human performance enhancement and environmental inoculation technologies into an ultra-light, durable, and breathable platform with unrivaled capabilities.

IcePlate EXO (ICE) weighs so little yet withstands so much. It furthers our mission of providing American Warfighters, Law Enforcement Officers, Private Security Contractors, and responsible citizens the means of consistently achieving Individual Operator Overmatch -- When Close Counts.

- 1x ICE Elastic Cummerbund w/2x 5.56 Mag Pockets per side
- 2x ICE Shoulder Shrouds
- 2x IcePlate PVC Pull Tabs
- 2x Swift Clips
- 1x Laser Cut Q-Hex IR Patch (colors may vary)

Specs:

Light + Strong

Using a unique and incredibly strong laser-cut, high molecular weight polyethylene laminate that is 14 times stronger than steel, ICE weighs just 19 ounces. This makes it one of the lightest plate carriers available today. It is also hydrophobic, cut-resistant and abrasion resistant.

MAPs-based Modularity

With MAPs (MOLLE Attachment Points) and loop on both the inside and the outside of each sleeve as well as an open-bottom architecture (also accommodates Left Exit and Right Exit IcePlate Curve), ICE is configured for maximum ventilation, modularity and drainage. ICE will not retain water, even under the most intense circumstances.

Medium ESAPI Plate Compatible

ICE fits Medium ESAPI plates. This design synchronizes with IcePlate Curve to create the thinnest, flattest, toughest and coldest (or hottest) system ever. Evaporative cooling is facilitated by the laser-cut MAPs on the inside of the plate bag, but can also supercharged easily with IceVents.

Unparalleled Customization

IcePlate Sleeve (coming soon) can be stacked (via MOLLE and/or hook and loop) for streamlined carry of both/either/or ESAPI armor plates and IcePlate Curve. Individual IcePlate Sleeves can also be purchased to MOLLE onto any plate carrier on the market. Don/doff is easy with a flat and durable quick-release system. ICE also features an elastic cummerbund with four pouches for 30-round magazines, SOARescue

MedMags, radios, etc. The ICE MOLLE Cumberbund will be backwards compatible with all ICE units.

Weight: Ultralight at just 19 ounces

Safety Instruction Guide for QORE PERFORMANCE, INC. ICE IcePlate Carrier Exoskeleton

Introduction

Thank you for choosing the QORE PERFORMANCE, INC. ICE IcePlate Carrier Exoskeleton. This product is designed to enhance human performance and provide environmental protection. It is essential to read and understand this safety instruction guide to ensure the safe and effective use of your IcePlate Carrier.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Regularly inspect the IcePlate Carrier for wear and tear, and replace if damaged.
- Keep the product away from sharp objects and extreme heat sources.
- Follow all local laws and regulations regarding the use of tactical gear.
- Be aware of your surroundings while using the product, especially in crowded or confined spaces.
- If you notice any signs of damage or malfunction, discontinue use immediately and consult the manufacturer.

Specific Safety Precautions for Use

- The IcePlate Carrier is not a flotation device; do not use it in water.
- Avoid using the IcePlate Carrier in situations where it may become entangled or caught on objects.
- Ensure that all straps and buckles are securely fastened before use.
- Do not exceed the weight capacity specified for the IcePlate Carrier.
- Use caution when attaching or detaching accessories to prevent injury.
- Keep the IcePlate Carrier out of reach of children when not in use.

Instructions for Installation and Usage

1. Fitting the IcePlate Carrier

- Adjust the shoulder straps and cummerbund to fit snugly but comfortably around your body.
- Ensure that the carrier is positioned correctly on your torso, aligning the front and rear sleeves.

2. Attaching Accessories

- Use the MAPs (MOLLE Attachment Points) to attach pouches or other accessories.
- Ensure all attachments are secure and do not obstruct movement.

3. Inserting Plates

- Insert the Medium ESAPI plates into the designated sleeves.
- Ensure that the plates are properly seated and do not shift during use.

4. Using the IcePlate Carrier

- Once fitted and equipped, conduct a mobility test to ensure comfort and functionality.
- Adjust any straps or accessories as necessary to maintain comfort during use.

5. Removing the IcePlate Carrier

- To remove, unfasten the cummerbund and shoulder straps.
- Store the carrier in a cool, dry place away from direct sunlight.

Disposal Instructions

- When the IcePlate Carrier reaches the end of its usable life or is damaged beyond repair, dispose of it in accordance with local regulations for textile and plastic waste.
- Do not burn the IcePlate Carrier as it may release harmful substances.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the contact information provided in the product packaging or visit the manufacturer's website.

Conclusion

By following this safety instruction guide, you can ensure the safe and effective use of the QORE PERFORMANCE, INC. ICE IcePlate Carrier Exoskeleton. Your safety is our priority, and we appreciate your commitment to using this product responsibly.
