

# ICE - IcePlate Carrier Exoskeleton - Ranger Green

[Home](#)

IcePlate EXO (ICE) is a new type of ultra-minimalist, ventilated, multi-role, scalable plate carrier.

IcePlate EXO (ICE) anchors our IceAge Ecosystem by combining all of our human performance enhancement and environmental inoculation technologies into an ultra-light, durable, and breathable platform with unrivaled capabilities.

IcePlate EXO (ICE) weighs so little yet withstands so much. It furthers our mission of providing American Warfighters, Law Enforcement Officers, Private Security Contractors, and responsible citizens the means of consistently achieving Individual Operator Overmatch -- When Close Counts.

AVAILABLE

## Each Package Includes:

- 1x ICE Front Sleeve
- 1x ICE Rear Sleeve
- 1x ICE Elastic Cummerbund w/2x 5.56 Mag Pockets per side
- 2x ICE Shoulder Shrouds
- 2x IcePlate PVC Pull Tabs
- 2x Swift Clips
- 1x Laser Cut Q-Hex IR Patch (colors may vary)

## Specs:

### **Light + Strong**

Using a unique and incredibly strong laser-cut, high molecular weight polyethylene laminate that is 14 times stronger than steel, ICE weighs just 19 ounces. This makes it one of the lightest plate carriers available today. It is also hydrophobic, cut-resistant and abrasion resistant.

### **MAPs-based Modularity**

With MAPs (MOLLE Attachment Points) and loop on both the inside and the outside of each sleeve as well as an open-bottom architecture (also accommodates Left Exit and Right Exit IcePlate Curve), ICE is configured for maximum ventilation, modularity and drainage. ICE will not retain water, even under the most intense circumstances.

### **Medium ESAPI Plate Compatible**

ICE fits Medium ESAPI plates. This design synchronizes with IcePlate Curve to create the thinnest, flattest, toughest and coldest (or hottest) system ever. Evaporative cooling is facilitated by the laser-cut MAPs on the inside of the plate bag, but can also supercharged easily with IceVents.

### **Unparalleled Customization**

IcePlate Sleeve (coming soon) can be stacked (via MOLLE and/or hook and loop) for streamlined carry of both/either/or ESAPI armor plates and IcePlate Curve. Individual IcePlate Sleeves can also be purchased to MOLLE onto any plate carrier on the market. Don/doff is easy with a flat and durable quick-release system. ICE also features an elastic cummerbund with four pouches for 30-round magazines, SOARescue

MedMags, radios, etc. The ICE MOLLE Cumberbund will be backwards compatible with all ICE units.

Weight: Ultralight at just 19 ounces

## Attributes

- Name: [QORE PERFORMANCE, INC. ICE - IcePlate Carrier Exoskeleton - Ranger Green](#)
- Manufacturer: [QORE PERFORMANCE, INC.](#)
- Product no.: EU2003856
- Mfr. No.: ICE-Ranger-Green
- Colour: Ranger Green
- Delivery weight: 1.5kg

# IcePlate Carrier Exoskeleton Safety Instructions

## Introduction

Thank you for choosing the IcePlate Carrier Exoskeleton (ICE) by QORE PERFORMANCE, INC. This guide provides essential safety instructions and guidelines to ensure the safe use of your IcePlate EXO. Please read this document carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- **Product Safety:** The IcePlate EXO is designed to ensure safe use by providing a durable and reliable solution for personal protection. Always inspect the product for any signs of damage before use.
- **Enhanced Recalls:** In the event of any safety concerns or recalls, you will be notified through standardized recall notices. Please follow the provided instructions for any necessary remedies.
- **Online Shopping:** When purchasing online, ensure that the seller complies with safety requirements similar to those in physical stores.
- **Special Consumer Focus:** Extra precautions should be taken when the product is used by vulnerable groups, such as children. Ensure that children do not use the product without adult supervision.
- **EU Contact Point:** For any safety inquiries, you can reach out to the designated EU contact point for assistance.
- **Rapid Alerts:** Stay informed about any unsafe products by checking updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Inspection:** Always inspect the IcePlate EXO for any visible damage or wear before each use. Do not use if damaged.
- **Fit:** Ensure that the IcePlate EXO fits securely and comfortably on your body to avoid any movement during use.
- **Weight Limit:** Do not exceed the recommended load capacity of the IcePlate EXO to prevent injury.
- **Environmental Conditions:** Be aware of your surroundings and avoid using the product in extreme weather conditions that may affect its functionality.
- **Proper Use:** Use the IcePlate EXO only for its intended purpose. Do not modify or alter the product in any way.
- **Training:** If you are a firsttime user, consider undergoing training to familiarize yourself with the product and its capabilities.

## Instructions for Installation and Usage

1. **Unpacking:** Carefully remove the IcePlate EXO from its packaging. Inspect all components to ensure nothing is missing or damaged.
2. **Adjusting Fit:**
  - Adjust the elastic cummerbund to fit snugly around your waist.
  - Ensure the shoulder straps are adjusted for comfort and stability.
3. **Attaching Accessories:**
  - Use the MAPs (MOLLE Attachment Points) to attach any additional accessories securely.
  - Ensure that all attachments are properly fastened before use.
4. **Wearing the Carrier:**
  - Place the IcePlate EXO on your body and secure the cummerbund and shoulder straps.
  - Ensure that the carrier is tight enough to prevent movement but comfortable enough to allow for full range of motion.
5. **Using IcePlate Sleeves:** If you are using IcePlate Sleeves, follow the instructions provided with the sleeves for proper attachment and use.
6. **PostUse Care:**

- After use, remove the IcePlate EXO and inspect it for any signs of wear or damage.
- Clean the carrier according to the care instructions provided in the product documentation.

## Disposal Instructions

- **Recycling:** When the IcePlate EXO reaches the end of its life cycle, dispose of it responsibly. Check local regulations for recycling options for polyethylene and other materials used in the product.
- **Hazardous Materials:** Do not dispose of the IcePlate EXO in regular household waste. Follow local guidelines for the disposal of technical equipment.

## Contact Information for Further Support

For any questions or concerns regarding the IcePlate Carrier Exoskeleton, please consult the official QORE PERFORMANCE, INC. website or refer to the product packaging for further assistance.

Thank you for prioritizing safety and performance with the IcePlate EXO. Your commitment to responsible use ensures that you can achieve your goals effectively and safely.
