The magazine is designed for 10 rounds.

The difference to the basic model of the Vepr-12 is the stiffening ribs and rivets of this magazine, which contributes to a reliable holding of the staple.

In addition to the rough surface, the outer walls are covered with a tread pattern, which does not lead to slipping in the hands. The magazine is not difficult to disassemble. Sunk in the release button of the back cover, you can easily remove it and get access for cleaning and maintenance.
