The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

MDT ACC Chassis System Kit Safety Instruction Guide

Introduction

Thank you for choosing the MDT ACC Chassis System Kit for your Remington 700. This guide provides essential safety instructions to ensure the safe and effective use of your chassis system. Please read this document carefully before installation and use.

General Safety Guidelines

- Always handle firearms and firearm accessories with care.
- Ensure the product is compatible with your specific firearm model before use.
- Keep the chassis system and all components out of reach of children and unauthorized users.
- Regularly inspect your chassis system for any signs of damage or wear.
- If you notice any defects or issues, discontinue use and contact a qualified professional.

Specific Safety Precautions for Use

- **Weight Management:** Be cautious when adjusting the weight of the chassis. Adding or removing weights can affect the balance and handling of the rifle.
- **Installation:** Follow all installation instructions carefully to avoid improper assembly, which may lead to accidents.
- **Shooting Position:** Ensure a stable shooting position when using the rifle. An unstable position can lead to misfires or accidents.
- **Accessories:** Ensure all accessories attached to the chassis are securely fastened. Loose accessories can fall off and cause injury.
- **Environment:** Use the chassis system in a safe and controlled environment, away from bystanders and potential hazards.

Instructions for Installation and Usage

1. **Unpacking:** Carefully remove the MDT ACC Chassis System from the packaging. Check for all components, including the chassis, MDT Elite Grip, and weights.
2. **Compatibility Check:** Verify that the chassis is compatible with your Remington 700 SA RH model.
3. **Weight Adjustment:**
 - To add weights, locate the designated areas on the buttstock, interior forend, or exterior forend.
 - Securely attach the weights using the provided screws.
 - To remove weights, reverse the process and ensure all screws are tightened.
4. **Grip Installation:** Attach the MDT Elite Grip to the chassis according to the provided instructions. Ensure it is securely fastened.
5. **Buttstock Adjustment:** Adjust the MDT's proprietary XTN buttstock interface as needed for comfort and fit. Ensure the stock is locked in place before use.
6. **Magazine Compatibility:** Ensure you are using AICS style magazines (sold separately) for optimal performance with the chassis system.
7. **Final Check:** Before using your rifle, perform a final inspection to ensure all components are securely attached and functioning correctly.

Disposal Instructions

- Dispose of all packaging materials responsibly and in accordance with local regulations.
- When disposing of the chassis system or any components, check for local recycling programs or hazardous waste disposal options.

- Do not dispose of the chassis system in regular household waste.

Contact Information for Further Support

For any safety inquiries, product concerns, or assistance, please refer to the manufacturer's website or contact the designated support channels.

Conclusion

Following these safety instructions will help ensure a safe and enjoyable experience with your MDT ACC Chassis System Kit. Always prioritize safety and responsible usage when handling firearms and accessories. Thank you for your attention to these important guidelines.
