

Long Rail with Night Vision Mount Rem 700 LA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

MDT Picatinny Scope Base with Night Vision Mount is specifically designed to make the mounting of your optics and night vision (NV), lighting or infrared (IR) accessories easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The rails are profiled to allow the back section of the rail to be mounted flush on the receiver while the front section of the rail is free-floating over the barrel. Both rear and front top rail sections are machined in parallel planes and the front section of the rail sits lower to accommodate installation of optics with larger objectives. These rails are designed with a 20 MOA incline providing additional elevation adjustment from your scope. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

MDT Long Rail with Night Vision Mount Safety Instructions

Introduction

Thank you for choosing the MDT Long Rail with Night Vision Mount for your Remington 700 LA. This product is designed to enhance your shooting experience by providing a secure and reliable mounting solution for your optics and night vision accessories. To ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR), please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always ensure that your MDT Long Rail is compatible with your specific firearm model before installation.
- Inspect the product for any visible damage or defects before use. Do not use if damaged.
- Keep the product out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding firearm accessories and usage.
- Be aware of your surroundings when using firearms and ensure a safe shooting environment.
- Report any unsafe conditions or accidents to the relevant authorities immediately.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using firearms.
- Ensure that the firearm is unloaded before attaching or detaching the rail.
- Do not exceed the manufacturer's recommended weight limits for mounted optics and accessories.
- Avoid using the rail in extreme weather conditions that may affect its performance.
- Check for any loose screws or components before each use to ensure stability and safety.
- Do not modify the rail or any of its components, as this may compromise safety and performance.

Instructions for Installation and Usage

1. Preparation

- Ensure that your workspace is clean and welllit.
- Gather all necessary tools for installation, including a screwdriver and any specific tools recommended by the manufacturer.

2. Installation Steps

- Ensure the firearm is unloaded and on a stable surface.
- Align the MDT Long Rail with the mounting points on your Remington 700 LA receiver.
- Secure the rail using the provided screws, ensuring they are tightened to the manufacturer's specifications.
- Doublecheck that the rail is mounted flush on the receiver and that the front section is freefloating over the barrel.

3. Usage Instructions

- Attach your optics or night vision accessories to the rail according to the manufacturer's instructions for those products.
- Regularly check the tightness of the rail and mounted accessories before use.
- Always follow the safety guidelines when handling and using your firearm with the mounted rail.

Disposal Instructions

- Dispose of the MDT Long Rail in accordance with local regulations regarding electronic and metal waste.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the MDT Long Rail with Night Vision Mount, please refer to the contact information provided on the packaging or the manufacturer's website.

Thank you for your attention to these safety instructions. Proper usage and care will enhance your experience with the MDT Long Rail and ensure safe operation.
