

Long Rail with Night Vision Mount Savage 10, 11, 12, 16

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

MDT Picatinny Scope Base with Night Vision Mount is specifically designed to make the mounting of your optics and night vision (NV), lighting or infrared (IR) accessories easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The rails are profiled to allow the back section of the rail to be mounted flush on the receiver while the front section of the rail is free-floating over the barrel. Both rear and front top rail sections are machined in parallel planes and the front section of the rail sits lower to accommodate installation of optics with larger objectives. These rails are designed with a 20 MOA incline providing additional elevation adjustment from your scope. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

MDT Long Rail with Night Vision Mount Safety Instructions

Introduction

Thank you for choosing the MDT Long Rail with Night Vision Mount. This product is designed to enhance your shooting experience by providing a secure and reliable mounting solution for optics and night vision accessories. It is important to read and follow these safety instructions to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the MDT Long Rail is compatible with your firearm model (Savage 10, 11, 12, 16) before installation.
- Always handle firearms and accessories with care. Treat every firearm as if it is loaded.
- Store the MDT Long Rail and firearms in a secure location, out of reach of children and unauthorized users.
- Inspect the MDT Long Rail for any signs of damage or wear before each use. Do not use if damaged.
- Follow all local laws and regulations regarding the use of firearms and accessories.
- Be aware of your surroundings and ensure a safe shooting environment.

Specific Safety Precautions for Use

- Ensure that the rail is installed correctly and securely before mounting any optics or accessories.
- Avoid overtightening screws during installation, as this may damage the rail or the firearm.
- When using night vision or infrared accessories, avoid direct exposure to bright lights, as this can damage the equipment.
- Do not exceed the recommended weight limit for accessories mounted on the rail to maintain balance and stability.
- Always wear appropriate eye and ear protection when using firearms.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools (e.g., screwdriver, torque wrench) before starting installation.
- Ensure the firearm is unloaded and pointed in a safe direction.

2. Installation Steps

- Locate the mounting points on your Savage firearm.
- Align the MDT Long Rail with the mounting points, ensuring it fits securely.
- Use the provided screws to attach the rail to the firearm. Tighten screws evenly to avoid warping.
- If applicable, install the recoil lug according to the manufacturer's instructions.

3. Mounting Optics and Accessories

- Select the appropriate optics or night vision accessory for your needs.
- Follow the manufacturer's instructions for mounting the optics or accessories onto the rail.
- Ensure all mounts are secure before use.

4. Usage

- Regularly check the tightness of the rail and mounted accessories during use.
- Be mindful of the 20 MOA incline for elevation adjustments while aiming.

Disposal Instructions

- Dispose of the MDT Long Rail in accordance with local regulations regarding the disposal of metal products.
- Do not dispose of the product in regular household waste. Check for recycling options in your area.

Contact Information for Further Support

For any inquiries regarding safety, installation, or usage of the MDT Long Rail with Night Vision Mount, please refer to the product packaging for the manufacturer's contact details. It is advisable to consult with a qualified professional if you have questions or concerns about the product.

Conclusion

By adhering to these safety instructions, you can ensure a safe and enjoyable experience with your MDT Long Rail with Night Vision Mount. Always prioritize safety and responsibility when handling firearms and accessories. Thank you for your attention to these guidelines, and enjoy your shooting experience.
