

Long Rail with Night Vision Mount Savage 110, 111, 112, 116

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

MDT Picatinny Scope Base with Night Vision Mount is specifically designed to make the mounting of your optics and night vision (NV), lighting or infrared (IR) accessories easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The rails are profiled to allow the back section of the rail to be mounted flush on the receiver while the front section of the rail is free-floating over the barrel. Both rear and front top rail sections are machined in parallel planes and the front section of the rail sits lower to accommodate installation of optics with larger objectives. These rails are designed with a 20 MOA incline providing additional elevation adjustment from your scope. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

Safety Instruction Guide for MDT Long Rail with Night Vision Mount

Introduction

Thank you for choosing the MDT Long Rail with Night Vision Mount. This product is designed to enhance your shooting experience by providing a secure and reliable platform for mounting your optics and night vision accessories. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always follow the manufacturer's instructions for installation and usage.
- Inspect the product before each use for any signs of damage or wear.
- Ensure that the rail is securely mounted to the firearm before use.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing or adjusting the rail.
- Use only compatible optics and accessories as specified by the manufacturer.
- Avoid placing excessive weight on the rail to prevent damage.
- Be aware of the recoil forces generated during firing and ensure the rail is properly secured.
- Do not modify the rail or its components in any way.

Instructions for Installation and Usage

Installation

1. Preparation:

- Gather all necessary tools and ensure the firearm is unloaded.
- Clean the mounting area on the receiver to remove any debris or oil.

2. Mounting the Rail:

- Align the MDT Long Rail with the mounting holes on the receiver.
- Insert and tighten the screws provided, ensuring the rail is flush against the receiver.
- Check that the front section of the rail is freefloating over the barrel.

3. Attaching Optics:

- Choose the appropriate optics for your needs.
- Follow the manufacturer's instructions for attaching the optics to the rail.
- Ensure that the optics are securely fastened and properly aligned.

Usage

- Always handle firearms safely and follow all applicable laws and regulations.
- Use the rail for its intended purpose only, which is to mount optics and night vision accessories.
- Regularly check the rail and attached accessories for tightness and stability.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal recycling.
- Do not dispose of the product in household waste.
- If the product is damaged beyond repair, contact local waste management for proper disposal methods.

Contact Information for Further Support

For additional support or safety inquiries, please refer to the contact information provided by your retailer or the manufacturer. Always ensure that you have access to assistance when needed.

Thank you for prioritizing safety while using the MDT Long Rail with Night Vision Mount. Your careful adherence to these guidelines will help ensure a safe and enjoyable shooting experience.
