

One Piece Mount, 34mm tube diameter - MDT Accessories - Scope Rings - One Piece Mount - 34mm - Medium - BLK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

Achieve unparalleled performance in rigidity and repeatability for your precision rifle optic with the MDT One-Piece Scope Mount. It offers a much larger surface area for mounting, which translates to a more rigid platform helping to ensure you don't lose your zero. Includes a set of MDT Accessory Scope Ring Caps allowing the attachment of rails, RDS plates and more to your scope mount. The four cross bolts that are used to clamp the mount to a picatinny base have a specific tightening order engraved onto the mounts clamp. When followed correctly, the mount will be able to transfer your scope from platform-to-platform with better repeatability and less "zero offset". It is recommended that the side nuts be torqued to 60-65 in/lbs for best repeatability results.

MDT One Piece Mount Safety Instruction Guide

Introduction

Thank you for choosing the MDT One Piece Mount. This guide provides important safety information and instructions to ensure the safe and effective use of your scope mount. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the MDT One Piece Mount is used only for its intended purpose.
- Always follow the installation and usage instructions provided in this guide.
- Regularly inspect the mount for signs of wear or damage before each use.
- If you notice any defects or issues, discontinue use immediately and seek assistance.
- Keep the product out of reach of children and vulnerable individuals.

Specific Safety Precautions for Use

- Always ensure that the scope mount is securely attached to the picatinny base before use.
- Follow the specific tightening order engraved on the mount's clamp to ensure proper installation.
- Torque the side nuts to 6065 in/lbs for optimal performance and repeatability.
- Avoid overtightening, which may damage the mount or the scope.
- Do not modify the mount or use it in ways not specified by the manufacturer.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a torque wrench.
- Ensure that the mounting area on your rifle is clean and free from debris.

2. Installation

- Position the MDT One Piece Mount on the picatinny rail at the desired location.
- Align the mount with the rail grooves to ensure a secure fit.
- Insert the cross bolts into the mount's clamp and handtighten them.

3. Tightening the Mount

- Refer to the engraving on the mount for the correct tightening order.
- Using a torque wrench, tighten the side nuts to a torque setting of 6065 in/lbs.
- Check that the mount is firmly secured and does not move.

4. Attaching the Scope

- Place your scope into the mount and align it as desired.
- Use the MDT Accessory Scope Ring Caps to secure the scope in place.
- Ensure that the scope is level and properly aligned before final tightening.

5. Final Checks

- After installation, doublecheck all bolts and screws for tightness.
- Test the mount by gently shaking the rifle to ensure stability.

Disposal Instructions

- Dispose of the MDT One Piece Mount in accordance with local regulations.
- Do not dispose of the product in household waste.
- If the product is damaged or no longer usable, consider recycling the materials where possible.

Contact Information for Further Support

For any inquiries or support regarding the MDT One Piece Mount, please refer to the manufacturer's contact information provided on the packaging or product documentation. Always ensure you have the latest updates on safety recalls or product information.

By following these guidelines, you can ensure a safe and effective experience with your MDT One Piece Mount. Thank you for your attention to safety!
