

One Piece Mount, 35mm tube diameter, high 1.5"

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

Achieve unparalleled performance in rigidity and repeatability for your precision rifle optic with the MDT One-Piece Scope Mount. It offers a much larger surface area for mounting, which translates to a more rigid platform helping to ensure you don't lose your zero. Includes a set of MDT Accessory Scope Ring Caps allowing the attachment of rails, RDS plates and more to your scope mount. The four cross bolts that are used to clamp the mount to a picatinny base have a specific tightening order engraved onto the mounts clamp. When followed correctly, the mount will be able to transfer your scope from platform-to-platform with better repeatability and less "zero offset". It is recommended that the side nuts be torqued to 60-65 in/lbs for best repeatability results.

MDT One Piece Mount Safety Instructions

Introduction

Thank you for choosing the MDT One Piece Mount, designed for precision rifle optics. This guide provides essential safety instructions to ensure the safe use and installation of your mount while complying with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the MDT One Piece Mount is used only for its intended purpose.
- Always inspect the mount for any signs of damage before installation and use.
- Keep the mount and all its components out of reach of children and vulnerable individuals.
- Follow all instructions carefully to avoid accidents and injuries.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:** Improper installation or use may lead to loss of zero or damage to your optics.
- **Avoid Overtightening:** Do not exceed the recommended torque of 6065 in/lbs on the side nuts to prevent damage.
- **Secure Mounting:** Ensure that the mount is securely clamped to the picatinny base before use.
- **Regular Checks:** Periodically check the tightness of the mount and the integrity of the scope ring caps.
- **Use in Appropriate Conditions:** Avoid using the mount in extreme weather conditions that may affect its performance.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools for installation, including a torque wrench.
- Ensure the installation area is clean and free from debris.

2. Installation Steps:

- Position the MDT One Piece Mount on the picatinny base.
- Align the mount so that it is level and properly oriented for your scope.
- Insert the four cross bolts into the mount's clamp.
- Follow the engraved tightening order on the mount to secure the bolts. This order is crucial for maintaining rigidity.
- Use a torque wrench to tighten the side nuts to 6065 in/lbs.

3. Usage Instructions:

- After installation, check the alignment of your scope through the mount.
- Test the mount by adjusting your scope and ensuring it returns to zero.
- If transferring the scope to another platform, repeat the installation steps to ensure proper fit and alignment.

Disposal Instructions

- Dispose of the MDT One Piece Mount and its components in accordance with local regulations.
- Do not dispose of the mount in regular household waste. Instead, contact your local waste management

authority for appropriate disposal methods.

Contact Information for Further Support

For any inquiries or support regarding the MDT One Piece Mount, please refer to the manufacturer's contact information provided in the product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure the optimal performance of your MDT One Piece Mount while maintaining safety for yourself and others. Thank you for your attention to these important guidelines.
