

# Premier Scope Rings, 34 mm tube diameter - MDT Accessories - Scope Rings - Premier - 34mm - X-High (1.50in) - BLK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

The MDT Premier Scope Rings offer a solid mounting system for your optics. Made from precision machined aluminium, these rings are available for the majority of scope sizes and required heights. CMM checked to 1.5 millionths of an inch precision. MDT Premier Scope Rings are designed and manufactured to STANAG 4694 specification, also known as "NATO spec". This means the scope ring sits tight to the top of the scope base rail, with pressure being applied to the underside of the angled rail surfaces to maintain a solid interface. This design also allows mounting on out-of-spec rails.

# MDT Premier Scope Rings Safety Instruction Guide

## Introduction

Thank you for choosing the MDT Premier Scope Rings. These scope rings are designed to provide a stable and secure mounting system for your optics. This guide contains important safety information to ensure the safe use and installation of the product. Please read this document carefully before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Inspect the scope rings for any visible damage before installation. Do not use damaged scope rings.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental injury.
- Follow all local laws and regulations concerning the use of firearms and optics.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Installation Surface:** Ensure that the mounting surface is clean and free from debris to guarantee a secure fit.
- **Torque Settings:** Use the recommended torque settings during installation to avoid overtightening, which may cause damage to the scope or rings.
- **Compatibility:** Confirm that the scope rings are compatible with your specific scope and mounting system to avoid misalignment or instability.
- **Weather Conditions:** Avoid using the scope rings in extreme weather conditions that may affect the integrity of the installation.
- **Regular Checks:** Periodically check the tightness of the scope rings and the alignment of your optics, especially after heavy use or exposure to rough conditions.

## Instructions for Installation and Usage

### 1. Prepare the Mounting Surface:

- Clean the mounting surface to remove any dirt or grease.
- Ensure that the surface is flat and undamaged.

### 2. Align the Scope Rings:

- Place the scope rings onto the mounting base, ensuring they are aligned properly.
- Confirm that the rings are positioned correctly for your specific scope size.

### 3. Secure the Scope:

- Carefully place the scope into the rings.
- Make sure the scope is level and properly aligned with your shooting position.

### 4. Tighten the Screws:

- Using the appropriate tool, tighten the screws on the rings to the manufacturer's recommended torque settings.
- Avoid overtightening, which can damage the scope or rings.

### 5. Final Checks:

- After installation, doublecheck the alignment and tightness of all screws.
- Ensure that the scope is securely mounted and does not move when pressure is applied.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for electronic and metal waste.
- Do not dispose of the product in regular household waste.
- Consider recycling the product if possible to minimize environmental impact.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or product performance, please refer to the manufacturer's website or contact your local dealer.

Thank you for your attention to these safety guidelines. Enjoy your experience with the MDT Premier Scope Rings.
