

# Elite Muzzle Brakes - MDT Elite Muzzle Brake 6.5/308, 3/4-20 thread

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

The MDT Elite Muzzle Brake has 35 degree angled baffles for increased recoil reduction while keeping a more streamlined design. By reducing recoil up to 66% the follow-up shot speed and accuracy is greatly improved while a straight cut through the rear baffle reduces concussive forces. MDT Muzzle Brakes are constructed out of alloy steel with a nitride finish and are provided with an overlapping lock nut. The nut offers some tuneability, as well as the ability to index the brake to make it straight. Perfect for recoil-sensitive shooters. Must be used on threaded barrels.

# MDT Elite Muzzle Brake Safety Instructions

## Introduction

Thank you for choosing the MDT Elite Muzzle Brake. This product is designed to enhance your shooting experience by reducing recoil and improving accuracy. To ensure your safety and the safety of others, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always handle firearms and accessories with care and respect.
- Ensure that the muzzle brake is installed correctly on a threaded barrel before use.
- Use only with compatible calibers: 264/6.5 mm (.264), 284/7 mm (.284), and 30 Caliber (.308).
- Keep the muzzle brake away from children and unauthorized users.
- Regularly inspect the muzzle brake for signs of wear or damage before each use.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure the firearm is unloaded before installing or adjusting the muzzle brake.
- Use protective eyewear when shooting to safeguard against debris and gases.
- Avoid using the muzzle brake in enclosed spaces without proper ventilation.
- Do not modify the muzzle brake in any way, as this can compromise its safety and effectiveness.
- Be aware of your surroundings and ensure a safe shooting environment.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Clean the threads on the barrel to remove any debris or oil.
- Align the muzzle brake with the threaded barrel and screw it on clockwise until handtight.
- Use the provided overlapping lock nut to secure the muzzle brake in place.
- Adjust the lock nut as needed to achieve the desired orientation of the muzzle brake.

### 2. Usage

- Before firing, confirm that the muzzle brake is securely attached.
- Fire the firearm in a safe and controlled environment.
- Monitor the performance of the muzzle brake during use; if you notice any unusual behavior, stop using it immediately and inspect for damage.

## Disposal Instructions

- Dispose of the muzzle brake in accordance with local regulations regarding metal waste.
- Do not dispose of the product in regular household waste.
- If the muzzle brake is damaged or no longer usable, consider recycling the materials where possible.

## Contact Information for Further Support

For any questions or concerns regarding the MDT Elite Muzzle Brake, please refer to the official MDT website or contact your local dealer for assistance.

Thank you for prioritizing safety while using the MDT Elite Muzzle Brake. Enjoy your shooting experience

responsibly!
